

CPR Guidelines

Timing is critical. It's important to take immediate action.

CHECK the victim for consciousness, breathing, signs of circulation and pulse.

CALL dial 911 or local emergency number

STEPS TO TAKE:

DO NOT MOVE the victim unless it is absolutely necessary!

Most fungal pathogens cause no permanent structural transformation. They will protect the layer of their protective mycelium.

It is important to note that the above discussion is based on the assumption that the system is in a steady state. If the system is not in a steady state, the above discussion may not be valid. For example, if the system is in a transient state, the above discussion may not be valid.

1. **What is the main difference between a group and a team?**
 A group is a collection of individuals who are working together, but they are not necessarily working towards a common goal. A team, on the other hand, is a group of individuals who are working together towards a common goal.

2. **What are the four main types of teams?**
 The four main types of teams are:

- **Formal teams:** These are teams that are created by an organization to achieve a specific goal.
- **Informal teams:** These are teams that are created by individuals who are working together towards a common goal.
- **Virtual teams:** These are teams that are created by individuals who are working together towards a common goal, but they are not physically together.
- **Self-managing teams:** These are teams that are created by individuals who are working together towards a common goal, but they are not managed by a manager.
