Catalogue of the General Theological Library, Boston, Massachusetts General Theological Library,1913 *Music, Art and Emotion* Conroy Cupido,2023-03-01 This book explores the ways in which four visual artists make sense of referentialism and emotion in music By listening to five art songs by Schubert Strauss Faur and Berlioz they were inspired to create new artworks as a result of their understanding of the meaning of the art songs This was done without an understanding of the text and the artists had to rely on referential meaning in music as well as the perceived or evoked emotions elicited by listening to the art songs The artworks created as a result of this project were exhibited at the Aardklop National Arts Festival entitled Nagmusiek This was a multi modal exhibition featuring music art and text This book employs Artistic Research and Phenomenology in order to understand this phenomenon as I explored the artists creative processes experiences and the tacit knowledge embedded in their artefacts This book would provide readers access to 20 new artworks each created as a result of the artists interpretation of the meaning they ascribed to art song Their creative process is also examined and synthesised with existing literature on emotion and referentialism in music *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* ,2003 **Catalog of Copyright Entries** Library of Congress. Reforming Music Chiara Bertoglio, 2017-03-06 Five hundred years ago a monk nailed his theses to a church gate in Wittenberg. The sound of Luther's mythical hammer, however, was by no means the only aural manifestation of the religious Reformation. This book describes the birth of Lutheran chorales and Calvinist psalmody, of how music was practised by Catholic nuns, Lutheran schoolchildren, battling Huguenots, missionaries and martyrs, cardinals at Trent and heretics in hiding at a time when Palestrina, Lasso and Tallis were composing their masterpieces and forbidden songs were concealed, smuggled and sung in taverns and princely courts alike. Music expressed faith in the Evangelicals' emerging worships and in the Catholics' ancient rites through its new beliefs were spread and heresy countered. Analysed by humanist theorists, it comforted and consoled miners, housewives and persecuted preachers; it was both the symbol of new conflicting identities and the only surviving trace of a lost unity of faith. The music of the Reformation thus was music reformed, music reforming, and the reform of music. This book shows what the Reformation sounded like and how music became one of the protagonists in the religious conflicts of the sixteenth century.

Sacred Song in America Stephen A. Marini, 2003 In *Sacred Song in America* Stephen A. Marini explores the full range of American sacred music and demonstrates how an understanding of the meanings and functions of this musical expression can contribute to a greater understanding of religious culture. Marini examines the role of sacred song across the United States from the musical traditions of Native Americans and the Hispanic peoples of the Southwest to the Sacred Harp singers of the rural South and the Jewish music revival to the music of the Mormon, Catholic and Black churches. Including chapters on New Age and Neo-Pagan music, gospel music and hymnals, as well as interviews with iconic composers of religious music, *Sacred Song in America* pursues a historical, musicological and theoretical inquiry into the complex roles of ritual music in the public religious culture of contemporary America.

Foundations of Christian Music Edward Foley, 2020-07-09 In the study of Christian liturgical music, the first three centuries of the Christian era are foundational. Seldom, however, does this period receive serious attention from scholars. One of the reasons for this oversight is the fluid auditory environment of this period and the inadequacy of the Western concept of music to describe this environment. *Foundations of Christian Music* addresses this lacuna by exploring the auditory environment of first-century CE Judaism and emerging Christianity until the time of Constantine (d. 337). Through a consideration of the text, styles, forms, performance and settings of Jewish and early Christian worship, *Foundations* offers an unusually rich perspective on the lyrical nature of emerging Christian worship.

Through Praxis Robert Beckford,2023-08-24 Is contemporary Black British gospel music a coloniality What theological message is really conveyed in these songs In this book Robert Beckford shows how the Black British contemporary gospel music tradition is in crisis because its songs continue to be informed by colonial Christian ideas about God Beckford explores the failure of both African and African Caribbean heritage Churches to Decolonise their faith especially the doctrine of God biblical interpretation and Black ontology This predicament has left song leaders musicians and songwriters with a reservoir of ideas that aim to disavow engagement with the social historical world black Biblical interpretation and the necessity of loving blackness This book is decolonisation through praxis Reflecting on the conceptual social justice album The Jamaican Bible Remix 2017 as a communicative resource Beckford shows how to develop production tools to inscribe decolonial theological thought onto Black British music s The outcome of this process is the creation of a decolonial contemporary gospel music genre The impact of the album is demonstrated through case studies in national and international contexts
