Neuroplasticity for Pastoral and Spiritual Care Kirk A. Bingaman, 2014-04-10 Studies in neuroscience demonstrate that a focus on mindfulness meditation and contemplative spiritual practice has the capacity to increase our non-anxious awareness and significantly lower our stress Not only is this finding of immediate importance for pastoral counselors and psychotherapists it will even necessitate a paradigm shift in the way that pastoral and spiritual practitioners approach the general care of souls The starting point for such a paradigm shift is an acknowledgement of the built-in negativity bias of the brain and how certain beliefs and theological views may inadvertently reinforce the bias to the detriment of individuals and faith communities Once necessary for human survival the ingrained bias can often be excessive for today's world resulting in negatively disproportionate assessments of life events and human relationships To balance the neural predisposition toward negativity and anxious awareness it is necessary for pastoral and spiritual caregivers and those in their care to cultivate a regular contemplative meditative practice The Power of Neuroplasticity for Pastoral and Spiritual Care focuses on the groundbreaking finding of contemporary neuroscience that the brain is built for change across the entire lifespan It is designed to make the research accessible to and relevant for those engaged in the work of pastoral and spiritual care in order to help clients and congregants effect lasting and transformative changes in the mind and brain Through the regular practice of contemplative prayer and meditation we can literally calm the stress region of the brain in order to live less anxiously and experience more fully the peace and joy of the present moment The introduction of mindfulness and acceptance based counseling approaches will provide pastoral and spiritual practitioners with an important therapeutic framework to situate their work from which they can make more informed and effective interventions geared toward using the mind to change the brain Tao Te Ching Laozi, 2006 The enduring wisdom of the Tao Te Ching can become a companion for your own spiritual journey Reportedly written by a sage named Lao Tzu over 2,500 years ago the Tao Te Ching is one of the most succinct and yet among the most profound spiritual texts ever written Short enough to read in an

afternoon subtle enough to study for a lifetime the Tao Te Ching distills into razor sharp poetry centuries of spiritual inquiry into the Tao the Way of the natural world around us that reveals the ultimate organizing principle of the universe Derek Lin's insightful commentary along with his new translation from the original Chinese a translation that sets a whole new standard for accuracy will inspire your spiritual journey and enrich your everyday life It highlights the Tao Te Ching's insights on simplicity balance and learning from the paradoxical truths you can see all around you finding strength through flexibility because bamboo bends it is tough to break achieving goals by transcending obstacles water simply flows around rocks on its way to the sea believing that small changes bring powerful results a sapling in time grows into a towering tree Now you can experience the wisdom and power of Lao Tzu's words even if you have no previous knowledge of the Tao Te Ching SkyLight Illuminations provides insightful yet unobtrusive commentary that describes helpful historical background explains the Tao Te Ching's poetic imagery and elucidates the ancient Taoist wisdom that will speak to your life today and energize your spiritual quest

Exploring the Spirituality of the World Religions Duncan S. Ferguson, 2010-08-24 Introduction to the spiritual pathways of the major world religions exploring the core beliefs values and practices of each tradition **Anatomy of Spirituality: Portrait of the Soul** Chander Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul
