Broad-headed and hooded moths serve the same functions but they also have other adaptations. Each type of leaf has features that are useful in certain part(s) of the world. These features give some that broad influence to diversity in broad leaves.

Blood vessels are flat, like a sheet of paper. They're light-weight and usually not very strong. They're not always large; but they're everywhere—transporting the oxygen. They often have a few **valves** along the inside.
