Sports Ministry David B. Lewis, David Irby, William Galipault, Wayne Rasmussen, 2023-03-22 The hope of the Gospel is a universal message and sports are arguably the universal language Sharing the former through the latter is a powerful combination for changing lives For students with a heart for both the field of sports ministry presents an idyllic career opportunity Until now there has never been a college textbook devoted to sports ministry With the arrival of Sports Ministry college and university instructors have a dedicated text for educating students on the how to process of developing viable sports ministry programs that share the Word and positively influence the world in which we live Chapters dedicated to fiscal responsibility facility management and legal matters educate students on the corporate aspects of running a sports ministry program while discussions centering on the intersection of sports and faith compel students to contemplate positive and negative aspects of competition whether competitive sport is compatible with faith and ethical behavior in sport In addition students will gain a historical perspective of the sports ministry movement and be introduced to many sports ministries serving today at the local regional national and international levels With Sports Ministry students will gain the knowledge and tools to share their faith and offer hope to others through the universal language of sport Ancillaries for adopting instructors are available online

Choices, Values, and Frames Daniel Kahneman, Amos Tversky, 2000-09-25 This book presents the definitive exposition of prospect theory a compelling alternative to the classical utility theory of choice Building on the 1982 volume *Judgement Under Uncertainty* this book brings together seminal papers on prospect theory from economists decision theorists and psychologists including the work of the late Amos Tversky whose contributions are collected here for the first time While remaining within a rational choice framework prospect theory delivers more accurate empirically verified predictions in key test cases as well as helping to explain many complex real world puzzles In this volume it is brought to bear on phenomena as diverse as the principles of legal compensation the equity premium puzzle in financial markets and the number of hours that New York cab drivers choose to drive on rainy days Theoretically elegant and empirically robust this volume shows how prospect theory has matured into a new science of decision making

Financial Management in the Sport Industry Matthew T. Brown, Daniel A. Rascher, Mark S. Nagel, Chad D.

McEvoy, 2021-04-07 Now in a fully revised and updated third edition this essential textbook introduces the fundamentals of sport finance and sound financial management in the sport industry. It is still the only textbook to explain every aspect of finance from the perspective of the sport management practitioner explaining key concepts and showing how to apply them in practice in the context of sport. The text begins by covering finance basics and the tools and techniques of financial quantification using industry examples to apply the principles of financial management to sport. It then goes further to show how financial management works specifically in the sport industry. Discussions include interpreting financial statements, debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money and more. The final part of the book examines financial management in four sectors of the industry: public sector, sport, collegiate athletics, professional sport and international sport. It provides an in-depth analysis of the mechanics of financial management within each of these sport sectors. Useful features such as sidebars, concept checks, practice problems, case analysis and case questions will help students engage more deeply with financial techniques and encourage problem-solving skills. This new edition includes a completely new chapter on international sport reflecting the globalized nature of the modern sport industry as well as expanded coverage of current issues such as digital media finance, recent legal cases affecting collegiate sport and the central importance of collective bargaining. **Financial Management in the Sport Industry** is an essential textbook for any undergraduate or postgraduate course in sport finance and an invaluable supplement to any course in sport business or sport management. It is also an important reference for all sport management practitioners looking to improve their understanding of finance. The book is accompanied by updated and expanded ancillary materials including an instructor's manual, PowerPoint slides and an image bank.

Legacy of the Blues: a Century of Athletics at the W

Garrett, Burdeshaw, Spearman, Wells, 2012-03-09 Mississippi University for Women was a pioneer in the Southeast Region as well as the State of Mississippi in encouraging, promoting and sponsoring intercollegiate athletics for women. The programs were always of the highest quality and conducted with integrity. The students and coaches involved were dedicated and committed to their respective sport. Loss of the Physical Education Assembly Building destroyed by a tornado in 2002 and the subsequent decision in 2003 by the university to cease participation in intercollegiate athletics prompted the writing of this book. Physical resources and historical records had been destroyed. Concern that the knowledge of this program would be lost along with its significance to the university, alumnae and women's sport history challenged five retired Health and Kinesiology faculty members to write this book. They knew that their collective knowledge and experiences were invaluable in recording a century of athletic competition at the W. These women promoted the educational model of sport believing that the opportunity to participate in sports brings both value and pleasure to the quality of life. **Sport Finance** Gil Fried, Timothy D.
