**IN-TEXT CITATION** is used to identify your source of information, whether quoted or paraphrased, within your paper. It is brief information, referring the reader to your reference list. Include the **author(s)** last name (unless it appears in the narrative) and the **date**. For quotations, include the **page number**, or for electronic (online) articles without page numbers, use a brief section title and paragraph number. Here are a few examples:

**Quotations -- with pages:** "Our culture is full of simpleminded myths of blame" (Sher, 1994, p. 45).

-- **online article, no pages:** "Empirical studies have found mixed results" (Golan & Kuchler, 2007, "Conclusions," para. 4).

**One author:** Pagels (1995) discussed ... **Two authors:** Juedes and Curry (1999) concluded...  
OR (Pagels, 1995) OR (Juedes & Curry, 1999)

**Three to five authors – first citation:** Smiler, Kay, and Harris (2008) examined the history...

-- **more references to the same source** (first author followed by et al.):  
Smiler et al. (2008) found...

**Six or more authors:** The first author followed by et al for all citations. If there is more than one article with the same lead author, see the manual for directions.

**Multiple works cited together:** List alphabetically by first author.

Several studies (Balda, 1995; Kamil, 1988; Pepperberg & Funk, 1990)...

**Personal Communications** (e.g., e-mail, personal interviews): These are included for in-text citations, but are not included in the reference list because they are not recoverable.

...as described by R. Gerstner (personal communication, November 12, 2001).

**Secondary Source** (use sparingly): The secondary source, Claiborne, is the one included in the reference list.
