## Grade Equivalency

## Grade Equivalent Description

Grade equivalent scores represent the grade level of a student's demonstrated ability based upon the number and difficulty of questions answered correctly. Grade equivalent scores are given as a decimal with the grade level year preceding the decimal point and month into that grade following the decimal point. For example, a grade equivalency score of 8.2 means that the student tested at 8th grade and two months into the 8th grade. In the graphs below, the red line indicates the tested grade level of the student and the bars represent testing results above or below that grade level.

Entwistle, 2018-03-05 Educational sociologists have paid relatively little attention to children in middle childhood ages 6 to 12 whereas developmental psychologists have emphasized factors internal to the child much more than the social contexts in explaining children s development Children Schools and Inequality redresses that imbalance It examines elementary school outcomes e g test scores grades retention rates in light of the socioeconomic variation in schools and neighborhoods the organizational patterns across elementary schools and the ways in which family structure intersects with children s school performance Adding data from the Baltimore Beginning School Study to information culled from the fields of sociology child development and education this book suggests why the gap between the school achievement of poor children and those who are better off has been so difficult to close Doris Entwistle Karl Alexander and Linda Olson show why the first grade transition how children negotiate entry into full time schooling is a crucial period They also show that events over that time have repercussions that echo throughout children s entire school careers Currently the only study of this life transition to cover a comprehensive sample and to suggest straightforward remedies for urban schools Children Schools and Inequality can inform educators practitioners and policymakers as well as researchers in the sociology of education and child development

**The American Court System** Marilyn McShane, 2020-10-28 Depending on whom one talks to today s criminal courts are either the savior or the demon of our social order While everyone seems to have an answer about what needs to be done the solutions are neither simple nor within our current allocation of resources Media hype and political posturing emotionally dilute the reality of what motivates crime and what constitutes effective punishment The essays and research in this anthology give the reader a realistic view of complex problems affecting our juvenile and adult courts and consequently the rest of the criminal justice system Topics include sentencing disparity sentencing reform and wrongful convictions Some

traditionally controversial issues are covered such as the insanity defense and the death penalty as well as the more recent three strikes and you're out movement and mandatory minimums This series will be of great utility to students scholars and others with interests in the literature of criminal justice and criminology
