Bower, 2003-01-01 Published during the tenth anniversary of the Book of Common Worship 1993 The Companion to the Book of Common Worship is a practical guide answering questions such as how do I use the Book of Common Worship to its fullest advantage and how can the Book of Common Worship form a congregation into a community that glorifies and enjoys God Ritualized Writing Bryan D. Lowe, 2017-03-31 Ritualized Writing takes readers into the fascinating world of Japanese Buddhist manuscript cultures Using archival sources that have

received scant attention in English primarily documents from an eighth century Japanese scriptorium and colophons from sutra manuscripts Bryan D Lowe uncovers the ways in which the transcription of Buddhist scripture was a highly ritualized endeavor He takes a ground level approach by emphasizing the activities and beliefs of a wide range of individuals including scribes provincial patrons and royals to reassess the meaning of scripture and reevaluate scholarly narratives of Japanese Buddhist history Copying scripture is a central Buddhist practice and one that thrived in East Asia Despite this there are no other books dedicated to the topic This work demonstrates that patrons and scribes treated sutras differently from other modes of writing Scribes purified their bodies prior to transcription Patrons held dedicatory ceremonies on days of abstinence when prayers were pronounced and sutras were recited Transcribing sutras helped scribes and patrons alike realize this and other worldly ambitions and cultivate themselves in accord with Buddhist norms Sutra copying thus functioned as a form of ritualized writing a strategic practice that set apart scripture as uniquely efficacious and venerable Lowe employs this notion of ritualized writing to challenge historical narratives about ancient Japan late seventh through early ninth centuries a period when sutra copying flourished He contends that Buddhist practice fulfilled a variety of social political and spiritual roles beyond ideological justification Moreover he demonstrates the inadequacy of state folk dichotomies for understanding the social groups institutions and individual beliefs and practices of ancient Japanese Buddhism highlighting instead common organizations across social class and using models that reveal shared concerns among believers from diverse social backgrounds Ritualized Writing makes broader contributions to the study of ritual and scripture by introducing the notion of scriptural cultures an analytic tool that denotes a series of dynamic relationships and practices involving texts that have been strategically set apart or ritualized Scripture Lowe concludes is at once a category created by humans and a body of texts that transforms individuals and social organizations who come into contact with it
