Ontologies for Agents: Theory and Experiences Valentina Tamma, Stephen Cranefield, Timothy W. Finin, Steven Willmott, 2006-03-30 There is a growing interest in the use of ontologies for multi agent system applications On the one hand the agent paradigm is successfully employed in those applications where autonomous loosely coupled heterogeneous and distributed systems need to interoperate in order to achieve a common goal On the other hand ontologies have established themselves as a powerful tool to enable knowledge sharing and a growing number of applications have benefited from the use of ontologies as a means to achieve semantic interoperability among heterogeneous distributed systems In principle ontologies and agents are a match made in heaven that has failed to happen What makes a simple piece of software an agent is its ability to communicate in a social environment to make autonomous decisions and to be proactive on behalf of its user Communication ultimately depends on understanding the goals preferences and constraints posed by the user Autonomy is the ability to perform a task with little or no user intervention while proactiveness involves acting autonomously with no need for user prompting Communication but also autonomy and proactiveness depend on knowledge The ability to communicate depends on understanding the syntax terms and structure and the semantics of a language Ontologies provide the terms used to describe a domain and the semantics associated with them In addition ontologies are often complemented by some logical rules that constrain the meaning assigned to the terms These constraints are represented by inference rules that can be used by agents to perform the reasoning on which autonomy and proactiveness are based [Nissan Skyline Model R30 Series](#) ,1983 *Federal Register* ,2006-03 *Datsun Nissan Skyline* ,1981 **Half a Lira's Worth** Mick Darcy, 2017-03-29 Vivronia was born a girl in the male dominated Eastern Arab society Her mother rejected her at birth because she had black moles on her face and neck Throughout her childhood and youth her mother convinced her that love and marriage could never be possible for her So what opportunities were there for a tall fat ugly female with the world in turmoil around her as she tried to survive the Lebanese Civil War She had to create her own opportunities Aged twenty three years she met a man gave him half a Lira's worth married him and obtained a visa to migrate to Australia as his wife In line with the Eastern culture sex was his privilege and her duty only It was a matter of being out of the frying pan and into the fire In Sydney five years later with her two infant sons she deserted her violent husband to become a single mother on welfare The welfare system paid for the removal of her facial moles turning the ugly duckling into a beautiful swan Aged forty five years after a singles without partners party she was seduced by a tall handsome lover who taught her Western culture lovemaking where women are allowed to enjoy sex She became belatedly addicted to it During the ensuing five years she climbed up the social ladder and married a prominent recent widower to secure her social and financial standing But her

past life of guilt and shame caught up with her The reader is left with the question was she a conniving female gold digger using her sexuality to obtain more of what she was not entitled to or was she the victim of her lifelong fractured environment forced to survive on her own in a male dominated society
