Lerman,2019-06-14 American government is in the midst of a reputation crisis An overwhelming majority of citizens

Republicans and Democrats alike hold negative perceptions of the government and believe it is wasteful inefficient and doing

a generally poor job managing public programs and providing public services When social problems arise Americans are

therefore skeptical that the government has the ability to respond effectively It s a serious problem argues Amy E Lerman

and it will not be a simple one to fix With Good Enough for Government Work Lerman uses surveys experiments and public

opinion data to argue persuasively that the reputation of government is itself an impediment to government s ability to

achieve the common good In addition to improving its efficiency and effectiveness government therefore has an equally

critical task countering the belief that the public sector is mired in incompetence Lerman takes readers through the main

challenges Negative perceptions are highly resistant to change she shows because we tend to perceive the world in a way

that confirms our negative stereotypes of government even in the face of new information Those who hold particularly

negative perceptions also begin to opt out in favor of private alternatives such as sending their children to private schools

living in gated communities and refusing to participate in public health insurance programs When sufficient numbers of

people opt out of public services the result can be a decline in the objective quality of public provision In this way citizens

beliefs about government can quickly become a self fulfilling prophecy with consequences for all Lerman concludes with

practical solutions for how the government might improve its reputation and roll back current efforts to eliminate or privatize

even some of the most critical public services
