## **No Way Down Life And Death On K:**

**No Way Down** Graham Bowley, 2010-06-29 New York Times Bestseller A refreshingly unadorned account of the true brutality of climbing K2 where heroes emerge and egos are stripped down and the only thing achieving immortality is the cold ruthless mountain Norman Ollestad author of *Crazy for the Storm* In this riveting work of narrative nonfiction New York Times journalist Graham Bowley re creates one of the most dramatic tales of death and survival in mountaineering history the 2008 K2 ascent that claimed the lives of eleven climbers In the tradition of *Into Thin Air* and *Touching the Void* **No Way Down** is the harrowing account of the worst mountain climbing disaster on K2 second to Everest in height but second to no peak in terms of danger On August 1 2008 no fewer than eight international teams of mountain climbers some experienced others less prepared ascended K2 the world's second highest mountain with the last group reaching the summit at 8 p m Then disaster struck A huge ice chunk came loose above a deadly three hundred foot avalanche prone gully destroying the fixed guide ropes More than a dozen climbers many without oxygen and some with no headlamps faced the nearly impossible task of descending in the blackness with no guideline and no protection Over the course of the chaotic night some would miraculously make it back Others would not From tragic deaths to unbelievable stories of heroism and survival **No Way Down** is an amazing feat of storytelling and adventure writing and in the words of explorer and author Sir Ranulph Fiennes the closest you can come to being on the summit of K2 on that fateful day *Understanding Extreme Sports: A Psychological Perspective* Eric Brymer, Francesco Feletti, Erik Monasterio, Robert D. Schweitzer, 2020-03-30 Extreme sports those activities that lie on the outermost edges of independent adventurous leisure activities where a mismanaged mistake or accident would most likely result in death have developed into a significant worldwide phenomenon Brymer Patterson 2002 and Generation Z turn to extreme sports because they are popular and linked to escapism Giannoulakis Pursglove 2017 Arguably extreme sports now support a multi billion dollar industry and the momentum seems to be intensifying Traditional explanations for why extreme sports have become so popular are varied For some the popularity is explained as the desire to rebel against a society that is becoming too risk averse for others it is about the spectacle and the merchandise that is associated with organised activities and athletes For others it is just that there are a lot of people attracted by risk and danger or just want to show off For others still it is about the desire to belong to sub cultures and the glamour that goes with extreme sports Some seek mastery in their chosen activity and in situations of significant challenges This confusion is unfortunate as despite their popularity there is still a negative perception about extreme sports participation There is a pressing need for clarity The dominant research perspective has focused on positivist theory driven perspectives that attempt to match extreme sports against predetermined characteristics For the most part empirical research has conformed to predetermined societal perspectives Other ways of knowing might reveal more nuanced perspectives of the human dimension of extreme sport participation This special edition brings together cutting edge research and thought examining psychology and extreme

sports with particular attention payed to the examination of motivations for initial participation continued participation effective performance and outcomes from participation
