Intelligence Reframed Howard E Gardner, 2000-09-18 Harvard psychologist Howard Gardner has been acclaimed as the most influential educational theorist since John Dewey His ideas about intelligence and creativity explicated in such bestselling books as Frames of Mind and Multiple Intelligences over 200 000 copies in print combined have revolutionized our thinking In his groundbreaking 1983 book Frames of Mind Howard Gardner first introduced the theory of multiple intelligences which posits that intelligence is more than a single property of the human mind That theory has become widely accepted as one of the seminal ideas of the twentieth century and continues to attract attention all over the world Now in Intelligence Reframed Gardner provides a much needed report on the theory its evolution and revisions He offers practical guidance on the educational uses of the theory and responds to the critiques leveled against him He also introduces two new intelligences existential intelligence and naturalist intelligence and argues that the concept of intelligence should be broadened but not so absurdly that it includes every human virtue and value Ultimately argues Gardner possessing a basic set of seven or eight intelligences is not only a unique trademark of the human species but also perhaps even a working definition of the species Gardner also offers provocative ideas about creativity leadership and moral excellence and speculates about the relationship between multiple intelligences and the world of work in the future

Geest & Kwantumfysica Paul J. van Leeuwen, 2024-12-01 De klassieke fysica werd geboren met Galileo Galilei die de resultaten van zijn experimenten in getallen uitdrukte Deze kwantisering van de natuur nam via Newton en opvolgers een

grote vlucht waarbij langzamerhand de werkelijkheid achter al die getallen verdween en getallen haar plaats innamen Dat is nu het domein van de klassieke fysica De opkomst van de kwantumfysica heeft duidelijk gemaakt dat de klassieke fysica niet het juiste beeld van de wereld biedt De ontdekkingen in de kwantumfysica die begonnen in 1900 maakten duidelijk dat de echte wereld een wereld is die zich als golven van potentie gedraagt Aanvankelijk leek dit beperkt tot elektromagnetische straling als golven van deeltjes van elektromagnetische energie fotonen Het golfaspect van elektronen werd echter ook al snel aangetoond Het grote raadsel was natuurlijk wat die overgang van potentie naar materieel deeltje veroorzaakte de zogenaamde kwantumcollaps Een kleine maar groeiende groep fysici stelt dat het bewustzijn van de waarnemer de factor is waardoor de wereld aan ons vanuit een nog niet materiële potentie verschijnt Mathematische kennis is niet vereist voor dit boek

A Redemptive Theology of Art David A. Covington, 2018-05-01 A Redemptive Theology of Art develops a biblical systematic and practical theology of aesthetics It begins with the roots and ontology of aesthetics vs art and the architecture and narrative of affection and passion their woes and their glory Those who would search the Bible find little support for art as commonly conceived in the West The language of aesthetics applied to the maker's intentions the qualities of the work and the responses of the audience better addresses the questions of beauty and better suits the discussion of human actions beliefs and culture than the language of art does The Bible yields more consistent and helpful answers to questions about the broader category of aesthetics than it does to questions about art leading in turn to better questions and a more practical and theological appreciation of human affections beauty and delight and the many paths by which people including Christians pursue them Using the categories and definitions from Scripture Covington gives hope and help not only for those who labor in the arts but for everyone who cares about the passions that motivate us We were made for God's delight and though sin and bondage plague our passions God

can shape our fun feelings desires affections and aversions Feelings are neither objective nor subjective they are redeemable Borrowing key ideas from other Christian writers on the arts or aesthetics Covington explores the connection between orthodox Protestant theology and a responsible respectful treatment of arts artists and all aesthetic fields of human work and speech **Who's Who in the South and Southwest 2000-2001** Marquis Who's Who, Marquis Who's Who Staff, 2000-11
