Grain Markets And Trade Policies David Blandford, 2019-03-13 The book is composed of a series of case studies The countries included reflect the interest and experience of the authors who collaborated in preparing the volume No attempt was made to provide representative coverage based upon a comprehensive classification of countries which is why there are no chapters dealing with such exporters as Argentina or Thailand or importers such as Egypt or Japan Despite the somewhat eclectic geographical mix many of the fundamental issues that face the North and the South both individually and collectively are illustrated by the case countries We would argue that there is much to be learned about the effective implementation of policy choices and the constraints that policymakers face by looking at individual country experiences rather than by attempting to generalize on the basis of an abstract theoretical framework There is a dearth of information on what countries actually do in managing domestic grain markets Louisiana North-South Expressway ,1978 **Indianapolis Directory**
