

Salutatorian Speech - Christopher Harris

Good morning students, school board members, superintendent and district staff.

First, I would like to thank all of you, from teachers to friends and family, for being in attendance this morning. You have all had a profound impact on the development of the students that will be graduating today, and I feel it is safe to say that I speak on behalf of the whole graduating Class of 2010, in thanking you for all of your efforts that you have invested in us to this day.

When I first sat down to write this speech, tons of thoughts were flowing through my mind. Am I going to reminisce about memories of great importance to me? How about speaking of significant events for the entire school? What is the message I should try to convey? Will I pass out or just be at a loss for words, because to be honest, I did not think I had it in me to do this. But the most important goal I strove for was to create a speech that was truly different.

web in this chapter let us solve a few problems based on the concept of amplitude modulation problem 1 a modulating signal $m(t) = 10 \cos(2\pi \cdot 10^3 t)$ is amplitude modulated with a carrier signal $c(t) = 50 \cos(2\pi \cdot 10^5 t)$ find the modulation index the carrier power and the power required for transmitting am wave solution

web if both amplitude and phase modulation are used at the same time it is called quadrature amplitude modulation qam digital version is also called qam in am amount of carrier and sidebands in the frequency spectrum determines the modulation type ssb ssb sc dsb dsb sc conventional am vsb and their sub types
