Understanding and Managing Model Risk Massimo Morini, 2011-11-07. A guide to the validation and risk management of quantitative models used for pricing and hedging. Whereas the majority of quantitative finance books focus on mathematics and risk management books focus on regulatory aspects, this book addresses the elements missed by this literature: the risks of the models themselves. This book starts from regulatory issues but translates them into practical suggestions to reduce the likelihood of model losses, basing model risk and validation on market experience and on a wide range of real-world examples with a high level of detail and precise operative indications.

Teutonic Mythology Viktor Rydberg, Rasmus Björn Anderson, 1905. **Teutonic Mythology (The Complete Three-Volume Edition)** Viktor Rydberg, 2022-12-10. Viktor Rydberg's *Teutonic Mythology* is a monumental three-volume exploration of Northern European myths, encapsulating the vast tapestry of Teutonic traditions, folklore, and spiritual beliefs. Rydberg employs a critical and comparative literary style, deftly intertwining etymological analysis with narrative retellings that resonate with both historical scholarship and poetic expression. The work stands as a seminal contribution to the study of mythology, offering a comprehensive examination of gods, giants, and heroes that shaped the cultural identity of the Germanic peoples while situating these figures within a broader Indo-European mythological context. Rydberg, a Swedish poet, philosopher, and scholar, was deeply influenced by the Romantic movement and its celebration of national heritage and folklore. His dedication to reviving and cataloging the myths of his ancestors led him to write this exhaustive study in which he sought to reclaim and illuminate the spiritual legacy of the Teutonic past. His academic rigor and passionate advocacy for cultural understanding reflect a broader yearning in the 19th century to reconnect with pre-Christian roots in contemporary society. *Teutonic Mythology* is an essential read for anyone interested in the foundations of Western mythology and its echoes in modern literature. Scholars, students, and enthusiasts alike will find Rydberg's rich narrative and analytical insights invaluable as they embark on a journey through the enchanting and often complex world of Teutonic myths.
