Scania Identity Manual:

Organizational Identity in Practice Lin Lerpold, Davide Ravasi, Johan van Rekom, Guillaume Soenen, 2012-11-12

Organizational Identity in Practice provides much needed in depth studies on what happens when aspirations claims and beliefs interact Given the practical needs of managers and students this exciting new text provides readers with more insight into what differences in these identity aspirations claims and beliefs really mean and what we may expect to occur when these differences become visible and what the outcomes of these processes are likely to be The diverse case studies illustrate how well known firms have dealt with the broad issues of who we are as an organization and what makes us similar or distinct from others and cover a broad range of industries firms and organizational forms The cases from companies such as Air France AT T Bang Olufsen BP Statoil Starbucks Scania and Alfa Romeo are focused on the broad topics of organizational identity strategy and the environment multiple and conflicting identities the construction of identities and how organizations express and project their identities The authors give scholars students and managers valuable ideas on how to deal with organizational identity challenges within firms Organizational Identity and Firm Growth Christoph

Dörrenbächer, Matthias Tomenendal, Sarah Stanske, 2016-08-17 This edited volume focuses on the interplay between organizational identities and firm growth an area which remains largely unexplored Firm growth in its various forms is omnipresent in the contemporary business environment but does not always lead to positive results At the same time some organizations are growing faster than their peers leading to questions of organizational growth antecedents In addition to the dominant economic reasons in strategic literature the volume seeks to integrate psychological aspects to the discourse thereby considering the micro meso and macro level By providing both insights into international academic thinking and into practical examples of small and medium sized companies in Berlin the authors identify new findings concerning successful growth strategies **Urban Mindscapes of Europe** , 2016-08-01 Urban mindscapes are structures of thinking about a city

built on conceptualisations of the city s physical landscape as well as on its image as transported through cultural representation memory and imagination This book pursues three main strands of inquiry in its exploration of these landscapes of the mind in a European context The first strand concerns the theory and methodology of researching urban mindscapes and urban imaginaries The second strand investigates some of the representations symbols and collective images that feed into our understanding of European cities It discusses representations of the city in literature film television and other cultural forms which in James Donald s phrase constitute archives of urban images The third and last section of the volume concentrates on the relationship between the collective mindscapes of cities urban policy and the practice of city marketing **Electric Mobility in Public Transport—Driving Towards Cleaner Air** Krzysztof Krawiec, Sylwester

Markusik, Grzegorz Sierpiński, 2021-04-22 This book addresses various aspects of electric mobility deployment in public transport These include transport policy related issues as well as technical organizational and technical dimensions of the

fleet conversion process from conventional one towards the increased share of electric vehicles in public transport In the book one may find e g the determinants for the successful functioning of electrified transport systems including charging facilities models and methods for battery electric bus energy consumption the analysis regarding the charging strategies including power grid as well as electric vehicle battery issues As the process of fleet conversion is multi faceted the book also contains the issues related to cybersecurity in public transport autonomous vehicles and hyperloop The book is dedicated to transport professionals consulting companies and researchers in the field of electromobility and modern transport systems
