economies the US and Japan are included for the purposes of wider comparison All of these jurisdictions are subjected to scrutiny by deploying a comparative case based study On the basis of these case solutions various conclusions are reached some of which challenge established orthodoxies in the field of comparative company law **Computerworld** ,1997-01-27 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Who's who in Finance and Business** ,2008 **Free the Market!** Gary L. Reback,2009-04-16 Why we need government intervention in the free market to protect competition and encourage innovation Starting about thirty years ago conservatives forced an overhaul of competition policy that has loosened business rules for everything from selling products to buying competitors Gary Reback thinks the changes have gone too far Today s competition policies he argues were made for the old manufacturing economy of the 1970s But in a high tech world these policies actually slow innovation hurt consumers and entrench big companies at the expense of entrepreneurs Free the Market is both a memoir of Reback s titanic legal battles involving top companies such as Apple Microsoft IBM Oracle and AT T and a persuasive argument for measured government intervention in the free market to foster competition Among the fascinating questions he considers Can a company ever compete too hard for the public good Should policy makers worry more about promoting competition or improving efficiency Does it help consumers when a manufacturer sets the prices its retailers charge Should the government do more to stop controversial mergers At what point does intellectual property protection hurt innovation Oracle Identity Management Marlin B.
