Personality. A Psychological Interpretation, 1954 *Personality* Gordon Willard Allport, 1938 **Personality** Abraham Aaron Roback, 1933 *Personality* W. Allport, 1954 *Personality* G. W. Allport, 1949 *Organisational Behaviour* Stephen P. Robbins, 2009 This book is the first Southern African edition of Stephen P Robbins s *Organizational Behaviour* the best selling organisational behaviour textbook worldwide An Analysis of Gordon W. Allport's The Nature of Prejudice Alexander O'Connor, 2017-07-05 With his 1954 book *The Nature of Prejudice* American psychologist Gordon Allport displays the crucial skill of reasoning producing and organizing an argument that was persuasive enough to have a major impact not only in universities but also on government policy The question that Allport tackled was an old one why are people so disposed to prejudice against those from other groups Earlier psychologists had suggested a number of reasons especially in the case of racial prejudice Some had suggested that racism was a learned behaviour conditioned by negative experiences of other races others that there was an objective rationale to negative racial stereotypes Allport however reasoned that prejudice is essentially a by product of the necessary mental shortcuts the human brain uses to process the vast amount of information it takes in Because our brains want to use as little effort as possible they regularly fall back on simple stereotypes which easily generate prejudice Gathering strong evidence for this hypothesis he reasoned clearly and persuasively that our natural cognitive approach is the most significant factor in accounting for prejudice Going further still Allport also reasoned that once this was better understood social scientists would be able to influence policy makers to curb discrimination by law *Principles of Rorschach Interpretation* Irving B. Weiner, 2003-07-18 This second edition of Irving Weiner s classic comprehensive clinician friendly guide to utilizing the Rorschach for personality description has been revised to reflect both recent modifications in the Rorschach Comprehensive System and new evidence concerning the soundness and utility of Rorschach assessment It integrates the basic ingredients of structural thematic behavioral and sequence analysis strategies into systematic guidelines for describing personality functioning It is divided into three parts Part I concerns basic considerations in Rorschach testing and deals with conceptual and empirical foundations of the inkblot method and with critical issues in formulating and justifying Rorschach inferences Part II is concerned with elements of interpretation that contribute to thorough utilization of data in a Rorschach protocol the Comprehensive System search strategy the complementary roles of projection and card pull in determining response characteristics and the interpretive significance of structural variables content themes test behaviors and the sequence in which various response characteristics occur Each of the chapters presents and illustrates detailed guidelines for translating Rorschach findings into descriptions of structural and dynamic aspects of personality functioning The discussion throughout emphasizes the implications of Rorschach data for personality assets and liabilities with specific respect to adaptive and maladaptive features of the manner

in which people attend to their experience use ideation modulate affect manage stress view themselves and relate to others Part III presents 10 case illustrations of how the interpretive principles delineated in Part II can be used to identify assets and liabilities in personality functioning and apply this information in clinical practice These cases represent persons from diverse demographic backgrounds and demonstrate a broad range of personality styles and clinical issues Discussion of these cases touches on numerous critical concerns in arriving at different diagnoses formulating treatment plans and elucidating structural and dynamic determinants of behavior

Becoming Gordon Willard Allport, 1955-01-01 An assessment of basic psychological concepts based on the premise that an individual's character is developed in terms of his own uniqueness
