and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand
their understanding of the world around them Resources for Teaching Middle School Science developed by the National
Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that
will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are aligned with the
National Science Education Standards This completely new guide follows on the success of Resources for Teaching
Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum
materials and other resources for science teachers The curriculum materials in the new guide are grouped in five chapters by
scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and
Applied Science They are also grouped by type core materials supplementary units and science activity books Each
annotation of curriculum material includes a recommended grade level a description of the activities involved and of what
students can be expected to learn a list of accompanying materials a reading level and ordering information The curriculum
materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the
guide The criteria reflect and incorporate goals and principles of the National Science Education Standards The annotations
designate the specific content standards on which these curriculum pieces focus In addition to the curriculum chapters the
guide contains six chapters of diverse resources that are directly relevant to middle school science Among these is a chapter
on educational software and multimedia programs chapters on books about science and teaching directories and guides to
science trade books and periodicals for teachers and students Another section features institutional resources One chapter
lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science
experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer

resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents *Physical Science* Michael J.
