In *Teaching Reading Across the Day*, literacy expert Jennifer Serravallo provides nine effective, predictable, research-based lesson structures that help busy teachers save planning time and focus their teaching and student attention on content rather than procedures. Each of the nine lesson structures reads aloud, phonics, and spelling vocabulary focus, shared reading, close reading, guided inquiry, reader's theater, and conversation. It has its own chapter and features a wealth of resources that let you see the lessons in action in ELA, Science, and Social Studies classes, including an annotated teaching vignette, lesson explanation, and research notes. Tips for planning, structure, and timing suggestions and ideas for responsive teaching. Detailed planning templates and 22 accompanying online videos covering over 3 hours of classroom footage. Jennifer's reflections, key look-fors, and ideas for next steps. Pullen, Michael J.

Kennedy, 2018-10-04 Of the many issues facing special education and general education today it is difficult to imagine one more important or timely than response to intervention RTI Almost overnight RTI has become standard practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education Although the two terms are currently used interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts RTI and MTSS and describing each one s unique role in both general and special education In addition the authors recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention **Sound Systems**
