Care at the End of the World Jina B. Kim, 2025-03-21 In *Care at the End of the World* Jina B. Kim develops what she calls crip of color critique bringing a disability lens to bear on feminist and queer of color literature in the aftermath of 1996 US welfare reform and the subsequent evisceration of social safety nets. She examines literature by contemporary feminist, queer, and disabled writers of color such as Jesmyn Ward, Octavia Butler, Karen Tei Yamashita, Samuel Delany, and Aurora Levins Morales, who each bring disability and dependency to the forefront of their literary freedom dreaming. Kim shows that in their writing, liberation does not take the shape of the unfettered individual or hinge on achieving independence. Instead, liberation emerges by recuperating dependency, cultivating radical interdependency, and recognizing the numerous support systems upon which survival depends. At the same time, Kim demonstrates how theories and narratives of disability can intervene into state-authored myths of resource parasitism, such as the welfare queen. In so doing, she highlights the alternate structures of care these writers envision and their dreams of life organized around reciprocity and mutual support. Narratives of Hurricane Katrina in Context Arin Keeble, 2019-05-29 This book analyzes six key narratives of Hurricane Katrina across literature, film, and television, from the literary fiction of Jesmyn Ward to the cinema of Spike Lee. It argues that these texts engage with the human tragedy and political fallout of the Katrina crisis while simultaneously responding to issues that have characterized the wider George W. Bush era of American history, notably the aftermath of 9/11 and ensuing War on Terror. In doing so, it recognizes important challenges to trauma studies as an interpretive framework, opening up a discussion of the overlaps between traumatic rupture and systemic or slow violence.

Adaptation in Young Adult Novels Dana E. Lawrence, Amy L. Montz, 2020-09-03 *Adaptation in Young Adult Novels* argues that adapting classic and canonical literature and historical places engages young adult readers with their cultural past and encourages them to see how that past can be rewritten. The textual afterlives of classic texts raise questions for new readers: What can be changed? What benefits from change? How can you too be agents of change? The contributors to this volume draw on a wide range of contemporary novels, from Rick Riordan's Percy Jackson series and Megan Shepherd's Madman's Daughter trilogy to Jesmyn Ward's *Salvage the Bones*, adapted from mythology, fairy tales, historical places, and the literary classics of Shakespeare, Charles Dickens, Jane Austen, and F. Scott Fitzgerald, among others. Unpacking the new perspectives and critiques of gender, sexuality, and the cultural values of adolescents inherent to each adaptation, the essays in this volume make the case that literary adaptations are just as valuable as original works and demonstrate how the texts studied empower young readers to become more culturally, historically, and socially aware through the lens of literary diversity.

The Writings of Jesmyn Ward Martyn Bone, 2025-07-24 Since the publication of her first novel in 2008, Jesmyn Ward has established herself as arguably the most important U.S. author of the twenty-first century. This book considers the full range of her career thus far, including National

Book Award winning novels *Salvage the Bones* and *Sing Unburied* as well as Ward's widely acclaimed memoir *Men We Reaped*. Martyn Bone thoughtfully examines key themes running throughout Ward's writing: Black life in the U.S. South, the legacies of slavery and segregation, neoliberalism as the contemporary form of capitalism, environmental crisis in the Anthropocene, and human-animal relations. Bone also connects Ward's work to major figures in the U.S. literary canon with particular focus on William Faulkner, Zora Neale Hurston, and Toni Morrison.

Whispers from the Heart of the South
Pasquale De Marco, 2025-05-14

Whispers from the Heart of the South is an evocative journey into the soul of the American South, a region steeped in history, culture, and resilience. This book takes readers on an exploration of the South's diverse landscapes, its vibrant heritage, and the stories of its people, revealing the region's complexities, contradictions, and undeniable allure. From the Appalachian Mountains to the Gulf Coast, the South is a tapestry of natural beauty, from rolling hills and fertile valleys to pristine beaches and mighty rivers. This book captures the essence of the Southern landscape, its beauty and bounty, and its role in shaping the region's identity and culture. The South is also a region of rich cultural heritage, shaped by a unique blend of European, African, and Native American influences. *Whispers from the Heart of the South* delves into the region's musical traditions, from the soulful melodies of blues and country to the energetic rhythms of zydeco and jazz. It explores the South's literary legacy, from the works of William Faulkner and Flannery O'Connor to contemporary writers who continue to capture the region's essence. But the South is also a region of contrasts and contradictions. It is a land of both beauty and poverty, of progress and inequality. This book confronts the South's troubled history of racial injustice, from the era of slavery to the Civil Rights Movement and beyond. It examines the region's ongoing struggles with poverty, education, and healthcare, while also highlighting the resilience and determination of its people. *Whispers from the Heart of the South* is more than just a book about a region; it is a celebration of the American South, its people, and its culture. Through its pages, readers will gain a deeper understanding of the South's past, present, and future, and come to appreciate its unique place in the American narrative. This book is an invitation to experience the American South in all its complexity and beauty. It is a journey of discovery, a celebration of resilience, and a testament to the enduring power of the human spirit. If you like this book, write a review on Google Books.

Critical Disaster Studies
Jacob A.C. Remes, Andy Horowitz, 2021-08-20

This book announces the new interdisciplinary field of critical disaster studies. Unlike most existing approaches to disaster, critical disaster studies begins with the idea that disasters are not objective facts but rather are interpretive fictions, and they shape the way people see the world. By questioning the concept of disaster itself, critical disaster studies reveals the stakes of defining people or places as vulnerable, resilient, or at risk. As social constructs, disaster, vulnerability, resilience, and risk shape and are shaped by contests over power. Managers and technocrats often herald the goals of disaster response and recovery as objective, quantifiable, or self-evident. In reality, the goals are subjective and usually contested. Critical disaster studies attends to the ways powerful people often use claims of technocratic expertise to maintain power. Moreover, rather than

existing as isolated events disasters take place over time People commonly imagine disasters to be unexpected and sudden making structural conditions appear contingent widespread conditions appear local and chronic conditions appear acute By placing disasters in broader contexts critical disaster studies peels away that veneer With chapters by scholars of five continents and seven disciplines Critical Disaster Studies asks how disasters come to be known as disasters how disasters are used as tools of governance and politics and how people imagine and anticipate disasters The volume will be of interest to scholars of disaster in any discipline and especially to those teaching the growing number of courses on disaster studies

an unparalleled trail of physical destruction In addition to that damage the storm wrought massive psychological and cultural trauma on Gulf Coast residents and on America as a whole Details of the devastation were quickly reported and misreported by media outlets and a slew of articles and books followed offering a spectrum of socio political commentaries and analyses But beyond the reportage and the commentary a series of fictional and creative accounts of the Katrina experience have emerged in various mediums novels plays films television shows songs graphic novels collections of photographs and works of creative non fiction that blur the lines between reportage memoir and poetry The creative outpouring brings to mind Salman Rushdie s observation that Man is the storytelling animal the only creature on earth that tells itself stories to understand what kind of creature it is This book accepts the urge behind Rushdie s formula humans tell stories in order to understand ourselves our world and our place in it Indeed the creative output on Katrina represents efforts to construct a cohesive narrative out of the wreckage of a cataclysmic event However this book goes further than merely cataloguing the ways that Katrina narratives support Rushdie s rich claim This collection represents a concentrated attempt to chart the effects of Katrina on our cultural identity it seeks to not merely catalogue the trauma of the event but to explore the ways that such an event functions in and on the literature that represents it The body of work that sprung out of Katrina offers a unique critical opportunity to better understand the genres that structure our stories and the ways stories reflect and produce culture and identity These essays raise new questions about the representative genres themselves The stories are efforts to represent and understand the human condition but so are the organizing principles that communicate the stories That is Katrina narratives present an opportunity to interrogate the ways that specific narrative structures inform our understanding and develop our cultural identity This book offers a critical processing of the newly emerging and diverse canon of Katrina texts
