..Introduction..

Ninja were the ultimate warriors of feudal Japan. Cloaked in darkness and secrecy, the Ghost-Soldiers struck fear into the hearts of their enemies and wreaked havoc on those who incurred their wrath. The Ninja do what must be done, and then it is forgotten. One must be invisible in the presence of the enemy, penetrate unseen anywhere, and pass without leaving a trace. Thus is the silent way of the Mystic-Knights, the Moonlit Path of the Shadow-Warrior, the Invisible Assassins of Feudal Japan, the Ninja.

Where there is no justice, the Ninja appear. They are not "called to action" by anyone. They are just ordinary people in extraordinary situations. They need not have a "clan" or "credentials" or even a great deal of training. They need only the Will.

The principles and forms presented herein are intended for use by the lone individual. Some may wish to have a "clan", there is nothing wrong with this; however, each Ninja must follow his own path, and must never follow another blindly. The techniques presented should never be used for personal gain. Because some techniques are easy to learn and very effective, they have been used to train and build up large armies quickly. Do not use these skills to harm others, or for personal benefit. One must follow their heart, thus is the true lesson of Ninjitsu.

..History of the Ninja..

Excerpt from "History of the Ninja" by www.4mattheninja.com

The history of the Ninja is hard to trace. This is because there were few, if any records kept of its existence. Most of what is known about the Ninja is taken from stories that have been passed down from generation to generation.

Nonuse ("the art of stealth") was first introduced to Japan in 522 A.D. as a religion practiced by priests. These priests were not violent people, they were "mystics" who gathered and shared information for the ruling classes. The Ninja as we know them were not introduced until later.

It wasn't until 645 A.D. that the priests perfected their fighting skills and made use of their knowledge of nonuse. This was because they found themselves being harassed by the central government and found it necessary to protect themselves.

In 794-1192 A.D. the new civilization flourished and with it, a new class of wealthy, privileged families. These families fought with one another in attempts to make or destroy emperors. The need for spies, informants and now assassins grew as these families duelled for power. They were suspicious and jealous of one another and would resort to any means necessary to eliminate any possible threats. Therefore, the practitioners of nonuse were in great demand. With this, the Ninja was born.

As the Ninja gained popularity, so did the stories of their superhuman abilities. This reputation was often encouraged by the Ninja themselves. Because they were a relatively weaker people than their counterparts, the Samurai, and were vulnerable to attack by the many warring families around them, it was to their advantage to have others believe they had such powers. Powers like having the strength of ten men, ability to turn into animals, fly and become invisible at will. The Ninja movies also added to the abilities by having the Ninja jump over buildings in a single jump, catch bullets in their teeth, and see into the future.

At this point you must understand the Samurai to truly understand just why the Ninja were so effective and in such

February 2017 **Shikata Ryu Ninjutsu Training Manual** Ven Merlyn D Seeley Jr, Merlyn Seeley, 2012-08-21 Probably you have chosen to pick up this book because you are interested in the martial arts of any kind or maybe you are just interested in gaining the knowledge of the ancient ninja. Whatever the reason for your interest in this book I can assure you that you will not be disappointed. I teach that the study of ninjutsu is not just merely the study of kicking, blocking and punching; it is a lifestyle that you have chosen to live by. There are far more points to the art on the ninja than just fighting and defending; you are agreeing to learn to use your mind like no individual can. You are agreeing to live by a strict code of ethics, uphold honor for yourself and those loved ones around you. However, if you plan on using the Shikata Ryu training manual to start a new page in your life to better your life and those around you, then you will begin a journey that is very rewarding.

The Grandmaster's Book of Ninja Training Masaaki Hatsumi, 1988-09-22 Do not expect easy answers or simple solutions here on these pages, but then that is the fun, the excitement, the joy of involvement in the warrior arts of accomplishment. It pleases me no end to see the world at large now welcoming the knowledge of ninjutsu's ages in the form of these books by the art's grandmaster. From the Foreword by Stephen K Hayes: In an uninhibited dialogue from a recent meeting with his top instructors from around the world, Dr. Masaaki Hatsumi discusses his personal journey through the mysteries of the ancient art of the phantom warrior. His topics cover the nutritional needs of a ninja, the changing physical attributes of the new ninja, details on training for the novice as well as the advanced student, and the spiritual aspects of ninja training and how it applies to the modern world. With numerous photos, Dr. Hatsumi demonstrates the extemporaneous techniques that flow from his form of training and how some of his top students have developed their own styles of ninjutsu. Dr. Masaaki Hatsumi, the grandmaster of the nine ninjutsu schools that comprise the ninja tradition, is an artist with brush and ink, a medical practitioner of seikotsu, and a prolific writer.
