

INSTEAD OF GIVING UP, I WILL:

- ☐ Take a deep breath.
- ☒ Try a different way of solving the problem.
- ☒ Ask a classmate.
- ☐ Try again.
- ☐ Ask a teacher for help.
- ☐ Ask my teacher if I can take a short break.
- ☒ Look back at my notes.
- ☒ Tell myself I can do it!
- ☒ Try my best!

You can't figure out what to do next on your project, so you want to just put it away and watch TV.

Perseverance ACTIVITIES

Name: Loty

I Can Persevere!

As you try each strategy, check off the box and answer the questions.

☐ Take a deep breath Did this help me calm down? Yes No	☐ Try a different way of solving the problem What did I try?	☒ Ask a classmate Who did I ask? <u>Sasha</u>
☐ Try again Did I get it this time? Yes No	☒ Ask a teacher for help Who did I ask? <u>Ms. S.</u>	☐ Ask my teacher if I can take a short break Did the break help? Yes No
☒ Look back at my notes Did I find what I needed? Yes No	☒ Tell myself I can do it! What positive message did I tell myself? <u>I can do this. I can do it.</u>	☒ Try my best! This is important because: <u>I can get more done.</u>

The strategy that worked best for me was:
Telling myself I could do it!

Teaching Elementary School Subjects Louis Win Rapeer,1917 Teaching Powerful Problem-Solving in Math Catherine C.

Lewis,Akihiko Takahashi,Shelley Friedkin,Nora Houseman,Sara Liebert,2025-08-22 Teaching Powerful Problem Solving in Math provides the first in depth portrait of schoolwide lesson study showing how U S teachers at several schools used it to implement powerful problem based mathematics instruction Students learn mathematics by confronting a novel problem and building the new understanding of the mathematical concepts needed to solve it just as mathematicians would By learning in this way students discover the power of their own thinking and gain confidence that extends well beyond mathematics This book introduces readers to urban elementary and K 8 schools where teachers have dramatically transformed math learning for teachers and for students Readers will follow teachers as they transform instruction using schoolwide lesson study building powerful new ways for educators to learn from each other and practice innovative teaching techniques The authors use in depth classroom portraits from the outset of schoolwide lesson study and three years later to illuminate the changes in mathematics instruction at a school that raised its proficiency on Smarter Balanced Assessment from 15% to 56% Extensive resources and links are provided to help readers understand and build on the work of these schools which is grounded in established principles of collective efficacy intrinsic motivation and learner agency for both students and teachers Book Features Shows how teaching through problem solving can erase the achievement gap in mathematics learning Provides the

first in depth portrait of schoolwide lesson study showing how U S teachers at several schools build it and use it to transform teaching Profiles teachers leading the transformation of instruction to achieve the ambitious vision of learning embodied in recent standards Uses photographs student work and detailed classroom descriptions to bring to life mathematics lessons in year 1 and year 4 of the school s work to build problem solving Provides examples and links to the strategies teachers use to make student thinking visible and actionable during mathematics lessons Includes lesson plans photographs of board work student journals school newsletters self assessment rubrics and dozens of links to the resources needed to begin using teaching through problem solving and school wide lesson study Provides long term teacher led solutions for professional learning and for mathematics instruction that have been shown to improve teacher retention and student proficiency **You Want Me to Teach What?** Mari Schay,Michael Tolon,2014-02-12 You re a secondary instrumental or choral specialist newly assigned to the general music classroom What now First take a breath calm down and then read this book Two experienced teachers who conquered this challenge offer practical advice with great care and wit Chapters of the book address attitude school environment classroom management curriculum and assessment and student performance In addition concrete lesson plans are provided for each grade level This book covers Pre K through sixth grade Teaching Critically about Lewis and Clark Alison Schmitke,Leilani Sabzalian,Jeff Edmundson,2020 The Lewis and Clark Corps of Discovery is often presented as an exciting adventure story of discovery friendship patriotism However when viewed through a non colonial lens this same period in U S History can be understood quite differently In BEYOND ADVENTURE the authors provide a conceptual framework ready to use lesson plans and teaching resources to address oversimplified versions of the Lewis and Clark expedition **Teaching Students to Drive Their Brains** Donna Wilson,Marcus Conyers,2016-06-28 If the difference between a student s success and failure were something specific you could teach wouldn t you Metacognition is exactly that a tool that helps students unlock their brain s amazing power and take control of their learning Educational researchers and professional developers Donna Wilson and Marcus Conyers have been exploring and using the explicit teaching of metacognition for years and in this book they share a practical way to teach preK 12 students how to drive their brains by promoting the following practices Adopt an optimistic outlook toward learning Set goals Focus their attention Monitor their progress and Engage in practices that enhance cognitive flexibility Wilson and Conyers explain metacognition and how it equips students to meet today s rigorous education standards They present a unique blend of useful metaphors learning strategies and instructional tips you can use to teach your students to be the boss of their brains Sample lessons show these ideas in a variety of classroom settings and sections on professional practice help you incorporate these tools and share them with colleagues and parents so that you are teaching for and with metacognition Research suggests that metacognition is key to higher student achievement but studies of classroom practice indicate that few students are taught to use metacognition and the supporting cognitive strategies that make learning easier You can teach metacognition to your students so why

wouldn't you This book shows you how *Exemplary Science for Resolving Societal Challenges* Robert Eugene Yager, 2010 Amid a flurry of national standards and high stakes assessments it's easy to overlook the curiosity and invention that is inherent to science and that should be central to any science lesson plan Similarly the connections between what students learn in the classroom and the issues facing our society are often lost in the race to cover the content This title focuses on how to successfully draw on these problems to illustrate the use and understanding of science for all learners Resources in Education, 1993

A Little Book on Teaching Steven Frank Barrett, 2012 It is often a challenging and overwhelming transition to go from being a student to being a teacher Many new faculty members of engineering and science have to make this dramatic transition in a very short time In the same closing months of your Ph D program you are trying to complete your research finish and defend your dissertation find a job move to a new location and start a new job as a faculty member If you are lucky you've had the opportunity to serve as a teaching assistant and possibly have taught a university level course If you have served as a research assistant your teaching opportunities may have been limited Somehow in this quick transition from student to teacher one is supposed to become a good teacher and be ready for the first day of school This book is intended as a basic primer on college level teaching and learning for a new faculty member of engineering and applied science New faculty members in other disciplines will find much of the information applicable to their area of expertise as well First and foremost this book is about learning and teaching However it also provides helpful information on related topics such as mentorship student challenges graduate students tenure and promotion and accreditation This book is also intended as a reference for seasoned professionals It is a good reference for those mentoring the next generation of college educators Table of Contents List of Figures What makes a Great Teacher A little learning theory Preparation for the first day of classes Assessment Beyond the first day *The Thinking Reader* Ciera Harris, 2025-02-21 Concepts lesson plans and strategies for making reading lessons work The Thinking Reader Cultivating Critical Thinkers in the Classroom is the frazzled teacher's guide to setting up any grade 2-4 classroom for reading success You won't find any busywork condescending lectures or boring worksheets in this book Instead you'll learn flexible reading strategies to blend into your lessons at the start of the school year that will support your students for years to come This book also debunks old school ideas about reading instruction and explains the concepts that you'll need to know as you help students build a foundation for their future as readers Former elementary teacher and instructional coach Ciera Harris has achieved remarkable replicable results with young readers not with a rigid system or program but with a new approach to thinking about reading In this book you'll learn why it makes sense to go beyond all the lessons of phonics fluency and vocabulary by making reading personal to each student This easy to use approach has helped teachers across the country create a culture of reading within their classrooms so students even those that struggle the most with reading can start view themselves as readers Help students learn based on what interests them as individuals and watch budding readers bloom Discover why reading is not a series of decoding

skills but a personal powerful act of thinking Learn the steps to setting up your classroom for reading success at the beginning of the year Get engaging lesson plans and techniques for implementing primary reading strategies like schema asking questions metacognition and so much more Overcome common roadblocks including student resistance to reading With The Thinking Reader elementary school teachers in grades 2 4 can build the ultimate framework for reading success
