Population

Density and Distribution

Activate

Study the two images and describe the differences. (climate, economic activities and services, relief, accessibility)

Climate
Relief
Accessibility
Economic activities and services

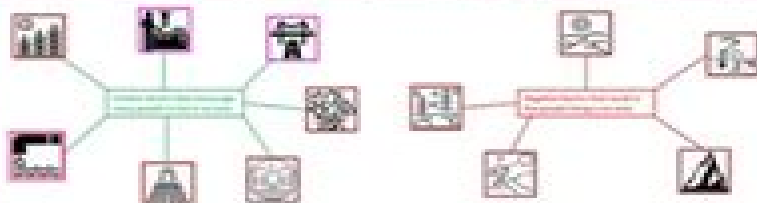

Extension: Compare these pictures to your own home area. Is it similar or different? Why?

PRESENTATION

Factors influencing where people live

Activities and the environment influence the location. People live in areas that are **physical** or **human**.

Physical

Extension: How can we use this information to help us understand the world better?

WORKSHEET

Global Population Distribution

Global population distribution shows where people live and how they are distributed. It is the study of the world's population.

Population Density

- The world's population is unevenly distributed across the globe.
- The majority of people live in densely populated areas.
- The majority of people live in areas where density is higher than the world average.
- The majority of people live in areas where density is lower than the world average.
- The majority of people live in areas where density is higher than the world average.

Population Density

Population Density and Distribution

Some areas of the world are densely populated (crowded) with many people. Some areas are sparsely populated (empty) with few people.

Factors influencing where people live:

Physical factors: climate, relief, accessibility, economic activities and services, and the environment.
