The Modern Library has been a staple of the American book trade providing readers with affordable hardbound editions of important works of literature and thought. For the Modern Library's seventy fifth anniversary Random House redesigned the series restoring as its emblem the running torch bearer created by Lucian Bernhard in 1925 and refurbishing jackets, bindings and type as well as inaugurating a new program of selecting titles. A. Sutherland, 2014-01-13 This topical, lively and wide ranging book examines the material conditions under which the contemporary English novel is produced and consumed. Its starting point is the general economic emergency which showed up these conditions with unusual clarity in the early 1970s. The first section of the book, Crisis and Change, considers the changing patterns of institutional book purchase, inflation and novel production, the Americanisation of the British book trade and the present state of fiction reviewing. The second section, State Remedies, surveys such interventions and failed interventions as Public Lending Right, Arts Council patronage and university support for creative writers. The third section, Trends Mainly American, selects specific areas: paperback publishing, self publishing, book clubs, television work which offer pointers to significant future developments in British literary culture. Fiction and the Fiction Industry pays close attention to actual novels combining literary criticism with its examination of the book trade. *The King of Ragtime* Larry Karp, 2024-04-02 It's 1916 and time's running out for Scott Joplin.
