*Understanding Early Christian Art* Robin M. Jensen, 2023-08-29 Surveying the content and character of early Christian iconography from the third to the sixth century CE this substantially revised and updated new edition of *Understanding Early Christian Art* makes the critical tools of art historians accessible to students It opens by discussing a series of questions pertaining to the evidence itself and how scholars through the centuries have regarded this material as expressing and transmitting aspects of the developing faith and practice of early adherents of Christianity It considers possible sources for the various motifs and the complex relationship between words and images as well as the importance of studying visual and material culture alongside theological and liturgical texts Rather than organising surviving examples by medium or chronology the chapters categorise the evidence according to their general iconographic type such as generic symbols biblical narratives and portraits Each chapter takes up important questions of visual culture formal style and the ways in which the iconography is distinct from or shows parallels with contemporary documentary sources like sermons exegetical works catechetical lectures or dogmatic treatises Concluding with a discussion of the late emerging depictions of Jesus s crucifixion resurrection and ascension it remains a valuable guide to comprehending the complex theology history and context of Christian art Augmented by over 140 full colour images accompanied by parallel text the interdisciplinary and boundary breaking approach taken in this extensively revised edition of *Understanding Early Christian Art* enables students and scholars in fields such as religion and art history to further their understanding and knowledge of the art of the early Christian era

**Sacred Stimulus** Galit Noga-Banai, 2018-06-01 *Sacred Stimulus* offers a thorough exploration of Jerusalem s role in the formation and formulation of Christian art in Rome during the fourth and fifth centuries The visual vocabulary discussed by Galit Noga Banai gives an alternative access point to the mnemonic efforts conceived while Rome converted to Christianity not in comparison to pagan art in Rome not as reflecting the struggle with the emergence of New Rome in the East Constantinople but rather as visual expressions of the confrontation with earthly Jerusalem and its holy places After all Jerusalem is where the formative events of Christianity occurred and were memorialized *Sacred Stimulus* argues that already in the second half of the fourth century Rome constructed its own set of holy sites and foundational myths while expropriating for its own use some of Jerusalem s sacred relics legends and sites Relying upon well known and central works of art including mosaic decoration sarcophagi wall paintings portable art and architecture Noga Banai exposes the omnipresence of Jerusalem and its position in the genesis of Christian art in Rome Noga Banai s consideration of earthly Jerusalem as a conception that Rome used or had to take into account in constructing its own new Christian ideological and cultural topography of the past sheds light on connections and analogies that have not necessarily been preserved in the written evidence and offers solutions to long standing questions regarding specific motifs and scenes Paul the Martyr David L. Eastman, 2011 Ancient iconography of Paul is dominated by one image Paul as martyr Whether he is carrying a

sword the traditional instrument of his execution or receiving a martyr's crown from Christ the apostle was remembered and honored for his faithfulness to the point of death. As a result, Christians created a cult of Paul centered on particular holy sites and characterized by practices such as the telling of stories, pilgrimage and the veneration of relics. This study integrates literary, archaeological, artistic and liturgical evidence to describe the development of the Pauline cult within the cultural context of the late antique West.

**Urban Developments in Late Antique and Medieval Rome** Gregor Kalas, Ann Dijk, 2025-10-01. A narrative of decline punctuated by periods of renewal has long structured perceptions of Rome's late antique and medieval history. In their probing contributions to this volume, a multi-disciplinary group of scholars provides alternative approaches to understanding the period. Addressing developments in governance, ceremony, literature, art, music, clerical education and the construction of the city's identity, the essays examine how a variety of actors, from poets to popes, productively addressed the intermittent crises and shifting dynamics of these centuries in ways that bolstered the city's resilience. Without denying that the past, both pre-Christian and Christian, consistently remained a powerful touchstone, the studies in this volume offer rich new insights into the myriad ways that Romans, between the fifth and the eleventh centuries, creatively assimilated the past as they shaped their future.

**Ancient Churches of Rome from the Fourth to the Seventh Century** Hugo Brandenburg, 2005. With its official recognition by the Roman state, the Christian community suddenly enjoyed the sympathy of the highest authorities, wide public attention and a great afflux, and with imperial support, architectural masterpieces were erected: the Lateran Basilica, St Peter's and San Paolo fuori le mura, whose dimensions and magnificence bore every comparison with pagan sanctuaries. The great rise in martyr worship furthermore prompted the construction of numerous memorial churches outside the city gates, which at the same time served as burial grounds for believers. Rome was transformed from capital of the Empire to capital of Christianity, boasting the tombs of the two prime apostles, Peter and Paul, and numerous other witnesses of Christ. Alongside these monuments of papal and imperial representation, several *tituli* (parish churches) were founded along the main thoroughfares inside the city to create visible landmarks of Christianity and satisfy the pastoral needs of an ever-growing community. Focusing on these formative centuries of Christianity, from the reign of Constantine until the emergence of the Medieval world order in the Carolingian age, Hugo Brandenburg offers a broad panoramic view of Christian church architecture in Rome from its conception to the establishment of canonical church types. Throughout, the author treats the archaeological remains as speaking testimonies, articulating the intentions, motivations and self-perception of Rome's early Christian community. This lucid and detailed exposition of more than 50 early churches of Rome, from the fourth to the seventh century, which draws together archaeological, documentary and literary sources, will appeal to the layman and the specialist alike. It contains an up-to-date bibliography on each subject and gives ample space to the discussion of recent developments in the field, whereby Hugo Brandenburg offers his own well-founded interpretations of the evidence and shows his immense expertise of early Christian

architecture The present work is lavishly illustrated with original plans and drawings and exclusive photographs especially taken for this volume which allow an unusually detailed visual insight into the sacred architecture of early Christian Rome

**Italian Medieval Sculpture in the Metropolitan Museum of Art and the Cloisters** Metropolitan Museum of Art (New York, N.Y.),Lisbeth Castelnovo-Tedesco,Jack Soltanian,2010 The collection of Italian medieval sculpture in The Metropolitan Museum of Art and The Cloisters began with the acquisition in 1908 of a Romanesque column statue today the

Museum s holdings comprise more than seventy works dating from the ninth to the late fifteenth century The birthplaces of these works range from Sicily to Venice some typify local styles others illustrate the intense artistic exchanges taking place within Italy and between Italy and the wider world Technological advances of the last decades have made it possible to determine more precisely the materials and techniques from which works of art are made the history of their alteration and the mechanisms of their deterioration Using such techniques scholars have been able to ascertain for example that sculptures previously thought to be modern works carved in the medieval manner were in fact completely authentic This innovative volume represents a watershed in the study of sculpture a collaborative dialogue between an art historian and a conservator between art history and art science that deepens our understanding of the object we see while illuminating its elusive enigmatic history From publisher s description      **The Christian Moses** Phillip Rousseau, Janet A.

Timbie, 2019-08-09 As it developed an increasingly distinctive character of its own during the first six centuries of the common era Christianity was constantly forced to reassess and adapt its relationship with the Jewish tradition The process involved a number of preoccupations and challenges the status of biblical and parabiblical texts several of them already debatable in Jewish eyes the nature and purposes of God patterns of prayer both personal and liturgical ritual practices ethical norms the acquisition and exercise of religious authority and the presentation of a religious face to the very different culture that surrounded and in many ways dominated both Christians and Jews The essays in this volume were developed within that broad field of inquiry and indeed make their contribution to it For among the many issues already mentioned there was also that of persons What was Christianity to do not just with Adam or Noah say but with Abraham David and Solomon the great prophetic figures of Jewish history and of course with Moses As we move chapter by chapter across the early Christian centuries we see Moses gradually changing in Christian eyes and at the hands of Christian exegetes and theologians until he becomes the philosopher par excellence the forerunner of Plato the archetype of the lawgiver the model shepherd of the people of God yet all on the basis of a scriptural record that Jews would still have been able to recognize Written by a range of established scholars younger and older many of them highly distinguished **The Christian Moses** will appeal to graduate and senior students to those rooted in a range of disciplines literary historical art historical as well in theology and exegesis and to everyone interested in Jewish Christian relations in this early era      **St. Paul's Outside the Walls** Nicola Camerlenghi, 2018-08-30 The book traces nearly two thousand years of architectural transformations to St Paul s Basilica one of Rome s principal churches      *Set in Stone* Metropolitan Museum of Art (New York, N.Y.), 2006 Publisher description      *The Via Latina Catacomb* William Tronzo, 1986 During the building of an apartment house on the Via Latina in Rome in 1955 a small Christian catacomb was brought to light a chance archaeological discovery that turned out to be a startling revelation The architectural form and painted decoration of the catacomb were much remarked not only were they exceptionally lavish they also proved exceedingly difficult to fit into the traditional picture of the development of Christian art

in late antique Rome The Via Latina Catacomb Imitation and Discontinuity in Fourth Century Roman Painting is the first in depth study of the monument in terms of its structure and function A single question that arises from the monument itself serves to focus the discussion Why was the last chamber in the catacomb made as a copy of one of the first But the question is also one that demands a comprehensive approach Thus the catacomb is examined with regard to its construction plan and architectural form as well as its style of painting and imagery

**Minhagim** Joseph Isaac Lifshitz, Naomi Feuchtwanger-Sarig, Simha Goldin, Jean Baumgarten, Hasia Diner, 2019-12-16 Parallel to the Halakhic laws the minhagim customs are dependent on local practices and the regional schools of sages and rabbis The minhagim played a decisive role in the history of the Jewish communities and in the formation of traditions of religious rulings They gave stability continuity and authority to the local institutions The impact of Jewish custom on daily life cannot be overestimated Evolving spontaneously as an ascending process it presents undercurrents that emanate from the folk gradually bringing about changes that eventually become part of the legislative code It further reflects influences of social cultural and mythological tendencies and local historical elements of every day life

of the period The aim of this volume is to examine the concept of minhag in the broadest sense of the word Focusing on the relationship between various types of customs and their impact on every aspect of Jewish life the volume studies the historical anthropological religious and cultural development and function of rites and rituals in establishing the Jewish self definition and the identity of the local communities that adhered to them The volume s articles cover the subject of custom from three perspectives an analysis of the theoretical and legal definition of custom an analysis of the social and historical aspects of custom and an anecdotal study of several particular customs Customs are a wonderful historical prism by which to examine fluctuations and changes in Jewish life      *Writing Power in Anglo-Saxon England* Catherine A. M. Clarke, 2012
