Daily Graphic Ransford Tetteh, 2014-09-10 Prosecuting International Crimes: A Multidisciplinary Approach Bartłomiej Krzan, 2016-07-11 The volume edited by Bartłomiej Krzan offers different perspectives on the prosecution of international crimes. The analyses contained therein reflect different backgrounds, mainly legal, combining several disciplines and making it a multidisciplinary study. The main but definitely not the exclusive point of reference is that of international law. In addition, other perspectives, those of legal history or sociology of law, and obviously the one of criminal law, both substantive and procedural, provide useful alternatives or, in most occasions, complementary approaches to the examination of the prosecution of international crimes. The book combines different views, backgrounds, and underlying assumptions. But gathered together, they are hoped to shed some additional useful light that might be helpful for identifying new dimensions of the reaction, judicial or other, towards international crimes. By means of a historical analysis of South Africa, this book introduces a new concept, police frontierism, which illuminates the nature of the relationships between the police, policing, and boundaries and can potentially be used for future case study research. Drawing on a wealth of research, this book examines how social and

territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization *Cyclones in Southern Africa* Godwell Nhamo,Kaitano Dube,2021-07-24 The subject of tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world has been growing over the past few decades However there is still limited literature on foundational and fundamental topics on the matter To this end this book addresses this gap citing some examples from both historic and recent tropical cyclones The book presents meteorological and climatic aspects of tropical cyclones including reviews on forecasting warning message dissemination and public response aspects of early warning systems with a focus on the Tropical Cyclones Idai and Kenneth Fundamentals in disaster risk reduction DRR are also discussed moving from the provisions of the Hyogo Framework for Action 2005 2015 to the Sendai Framework for Disaster Risk Reduction 2015 2030 Climate change issues are central to the publication as well as the role of information and communication technologies in DRR and management The book also tackles some challenges and opportunities associated with the implementation of regional legal and institutional frameworks on DRR The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe and Cyclones in Southern Africa Vol 3 Implications for the Sustainable Development Goals To this end this book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health Annual Report South Africa.
