deaths and injuries Combined with the cynical learned helplessness of its politicians the result is gridlock and a growing roll of victims of carnage Is there a path out of this cultural and political gridlock Tragedy in Aurora argues that if America is to reduce gun violence it must expand the debate and confront the fundamental question of who are we Tom Diaz gives a new understanding of American culture and the potential for change offered by the growing number and ongoing organization of victims and survivors of gun violence Without conscious cultural change the book argues there is little prospect of effective laws or public policy to reduce gun violence in general and public mass shootings in particular
