Culture and Identity through English as a Lingua Franca Will Baker, 2015-07-01 The use of English as a global lingua franca has given rise to new challenges and approaches in our understanding of language and communication One area where ELF English as a lingua franca studies both from an empirical and theoretical orientation have the potential for significant developments is in our understanding of the relationships between language culture and identity ELF challenges traditional assumptions concerning the purported inexorable link between a language and a culture Due to the multitude of users and contexts of ELF communication the supposed language culture and identity correlation

often conceived at the national level appears simplistic and naïve. However it is equally naïve to assume that ELF is a culturally and identity neutral form of communication. All communication involves participants, purposes, contexts and histories, none of which are neutral. Thus we need new approaches to understanding the relationship between language, culture and identity, which are able to account for the multifarious and dynamic nature of ELF communication. *The Epic of Latin America, Fourth Edition* John A. Crow, 1992-01-17. Uniquely comprehensive and comparative, praised for its devotion to social and cultural developments as well as politics and economics, this book has been revised and brought up to date with chapters on the great upheavals of the 1980s.

Translation and Own-Language Use in Language Teaching Eva Skopečková, 2024-04-06. This book reconsiders the role of translation and own language use in the EFL/English as a Foreign Language classroom. It shows prospective teachers how to use the learners' own language and translation optimally. The author surveys current research about the EFL classroom and presents both a theoretical framework and a didactic model for using translation and learners' mother tongues. This is done through an action research project assessing the proposed didactic model for optimal translation practice in English Language Teaching (ELT) through its integration into teacher education. The book will be of interest to students and researchers in the areas of Translation Studies and Applied Linguistics, particularly EFL, ESL, TEFL and TESOL, as well as educators and designers of pre-service training programmes for language teachers.
