**Congressional Record**, **Congressional Record** United States. Congress, 1992 **New York's Broken Constitution** Peter J. Galie, Christopher Bopst, Gerald Benjamin, 2016-11-15 Examines the significant gaps between what

New York State's constitution says and how the state is actually governed and offers ideas for reform. On its face New York State's constitution is an elaborate and impressive aggregation of processes, powers, mandates, and limits. But many of these are inoperative, and New Yorkers who read the document and believe what it says will come away with a massive misunderstanding of the realities of state government. The essays in *New York's Broken Constitution* seek to clarify the realities by bringing attention to the gaps between what the constitution says and how the state is actually governed, and they provide a disquieting picture of the state of the state's constitution. Among the topics addressed are state debt and budgeting practices, legislative redistricting, local government gambling, conservation, and the process of amending the constitution. Written by knowledgeable professionals, the chapters explain the constitutional provisions in question, including the reasons for their constitutional status, how they have been used and interpreted, and the extent of the gaps between the constitutional provisions and practice. Various proposals for reform are also examined. This is an impressive volume teeming with invaluable insights. It presents a compelling message since many of the dysfunctions in state governance are inextricably tied to the organizational structures and policies detailed and sometimes followed, sometimes disregarded, in the state constitution. Constitutional reform is imperative. Anyone concerned about the operation and current dysfunction of New York State government should read this book. Vincent M. Bonventre, Albany Law School. This book will be enormously useful in guiding the public and scholarly debate in the lead up to the November 2017 vote on the question of whether to hold a state constitutional convention. John J. Dinan, author of *The American State Constitutional Tradition*. *The Economist*, 2010.

*The Scandal of Reform* Francis S. Barry, 2009-04-28. No city in the world has seen more intense political battles between bosses and reformers than New York, which is home to America's original party machine, Tammany Hall, and its most spectacular urban corruption scandals. In these battles, reformers have always presented themselves as white knights gallantly crusading for good government against the petty and corrupt hacks who are driven by self-interest. So it remains today. But as *The Scandal of Reform* makes clear, this good versus evil storyline is mostly myth, an urban legend perpetuated by a reform community that has always been more self-righteous than right and more interested in power than in democracy. *The Scandal of Reform* pulls the curtain back on New York's reformers past and present, revealing the bonds they have always shared with the bosses they disdain, the policy failures they still refuse to recognize, and the transition they have made from nonpartisan outsiders to ideological insiders. Francis S. Barry examines the evolution of political reform from the frontlines of New York City's recent reform wars. He offers an insider's account and analysis of the controversial 2003 referendum debate on nonpartisan elections and he challenges reformers and members of both parties to reconsider their faith in reforms that are no longer serving the public interest. *CQ Weekly Report*, 1994. **Congress and the Nation 2013-2016, Volume XIV** David Hosansky, 2019-10-29. Chronicling the polarized partisan environment during the President Barack Obama's second term, *Congress and the Nation 2013-2016 Vol XIV* is the most authoritative reference on

congressional lawmaking and trends during the 113th and 114th Congresses The newest edition in this award winning series documents the most fiercely debated issues during this period including The unprecedented federal government shutdown The strike down of the Defense of Marriage Act as unconstitutional End of the filibuster for most executive and judicial branch nominees Changes to the Dodd Frank Act Israeli Prime Minister Netanyahu and Pope Francis address joint sessions Sexual Assault Survivors Rights Act passed overhauling rape kit processing and establishment of victim bill of rights SPACE Act passed allowing commercial exploration of space No other source guides readers seamlessly through the policy output of the national legislature with the breadth depth and authority of Congress and the Nation This is a landmark series is a must have reference for all academic libraries and meets the needs of the full spectrum of users from lower level undergraduates through researchers and faculty

**Social Transformation for Climate Change** Nicholas Low, 2023-12-22 This book argues that social transformation is both necessary and possible if democracies are to respond effectively to the climate crisis without social collapse Climate transformation and social transformation are intimately connected Understanding how to address climate change requires a historical approach both to the climate and to our collective institutions of humanity Drawing on the works of Karl Polanyi and Thomas Piketty Nicholas Low traces the course of historic social transformations from Britain Russia and Australia to highlight key commonalities social crisis the widespread sense by those in power that something has to change the shift in ideology and the political champions that drove the change Within its international scope the book delves deeper into specific instances of inequality and poverty from Britain the USA Australia and the Global South It shows how these examples are connected with the current climate emergency Finally the author draws together all the evidence from past transformations to outline how a new social democratic transformation could generate a better future creating the social solidarity necessary to cope with the climate crisis This book will be of great interest to students and scholars of climate change environmental politics and policy political ecology environmental sociology and environmental studies more broadly Its argument is also highly relevant for political actors working towards social and economic transformation

Framed Sanford

Levinson, 2012-04-03 In *Framed* Levinson challenges our belief that the most important features of our constitutions concern what rights they protect Instead he focuses on the fundamental procedures of governance such as congressional bicameralism the selection of the President by the electoral college or the dimensions of the President's veto power not to mention the near impossibility of amending the United States Constitution These seemingly settled and hardwired structures contribute to the now almost universally recognized dysfunctionality of American politics Levinson argues that we should stop treating the United States Constitution as uniquely exemplifying the American constitutional tradition We should be aware of the 50 state constitutions often interestingly different and perhaps better than the national model Many states have

updated their constitutions by frequent amendment or by complete replacement via state constitutional conventions California's ungovernable condition has prompted serious calls for a constitutional convention This constant churn indicates that basic law often reaches the point where it fails and becomes obsolete Given the experience of so many states he writes surely it is reasonable to believe that the U S Constitution merits its own updating **More Political Babble** David Olive, 2008-05-02 I was dramatically shaped by my grandmother and my aunts because they convinced me there was always a cookie available Deep down inside I'm four years old and I wake up and think out there there's a cookie Every morning I'm going you know either it can be baked or it's already been bought but it's in a jar somewhere Newt Gingrich in 1994 from his Renewing American Civilization Lecture Series Picking up where its hilarious predecessor left off this wickedly witty new treasure trove of outbursts bon mots and miscalculations draws from every corner of the political arena foreign affairs the White House the scandals the media the campaign trail and more The laughs come from politicians past and present including Republican presidential hopefuls Bob I don't think I'm mean I don't throw things at my wife or staff Dole and Phil I'm carrying so much pork I'm beginning to get trichinosis Gramm David Olive proves beyond a doubt that oral ineptitude knows no political affiliation and that even history's most revered politicians could at times put foot firmly in mouth The great Sir Thomas More once said Anyone who deliberately tries to get himself elected to public office is permanently disqualified from holding one After reading this priceless compendium we're sure you'll agree Or perhaps President Clinton's campaign adviser Paul Begala put it best Politics is show business for ugly people Well I don't have much job security Bill Clinton on why he still plays the saxophone If I want to knock a story off the front page I just change my hairstyle Hillary Clinton I understand my critics are fixated and pathologically disoriented but they are my opponents Why should I try to correct them Newt Gingrich We've never had a president named Bob And I think it's time Bob Dole I've got a lot to learn about Washington Why yesterday I accidentally spent some of my own money Senator Fred Thompson Let me win the election and after that you come ask me questions about how I run a government Canadian Prime Minister Jean Chretien Last year I was Bambi this year Stalin From Disneyland to dictatorship in twelve short months British Labor Party Leader Tony Blair
