**"This is a seriously crazy-ass film."**

— Richard Rogers, 1960-1961

Bargain hunters at Forest Ridge Mall get more than they bargained for: a chubby knacker in a ratty bathrobe. They're repulsed. Security guard Ronnie Bernhard isn't. "This disgusting pervert is the best thing that ever happened to me!" Catching the knacker may be his ticket to a real police job and to romance with a hot cosmetics-counter princess. Only one thing stands between Ronnie and destiny: a tall, handsome cop who actually knows what he's doing. *Both Ropes (Knocked Up)*. Anna Farris (of the *Scary Movie* series) and Ray Liotta (*GoodFellas*) star in this mall-to-mall comedy covering acres of wild, sometimes raunchy, up-to-your-grill funny — all under one roof.

**Abstract** The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 10-year-old children. The study was conducted in a primary school in the city of Ankara, Turkey. The study group consisted of 20 children (10 boys and 10 girls) who were randomly selected from the 10-year-old children in the school. The children were divided into two groups: a control group and an experimental group. The control group did not participate in any physical activity program, while the experimental group participated in a 12-week training program. The physical fitness of the children was measured at the beginning and at the end of the 12-week period. The measurements included heart rate, blood pressure, and body mass index. The results of the study showed that the experimental group had significantly higher heart rates and blood pressures at the end of the 12-week period compared to the control group. The body mass index of the children in the experimental group also increased significantly. These findings suggest that a 12-week training program can improve the physical fitness of 10-year-old children.
