Poems With Figurative Language Elementary:

Upper Elementary Reading Lessons Marilyn J. Chambliss, Linda Valli, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching. It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like. This volume provides these images. These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms. Each lesson contains elements of sound instructional practice from which both preservice and in-service teachers can benefit. Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners. Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL, these unrehearsed cases are written with the understanding that teaching is complex and multi-dimensional. The cases are drawn from a four-year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low-income families.

Challenging Common Core Language Arts Lessons Clg Of William And Mary/Ctr Gift Ed, 2021-09-03 This book from the Center for Gifted Education at William Mary provides gifted and advanced learners challenging activities to master and engage with the Common Core State Standards for English Language Arts through four mini-units. Each mini-unit is packed with activities that enrich and extend grade-level ELA content for grade 6. Included texts have messages and characters that are developmentally suitable for students. Through higher-order reasoning questions, resulting discussions, and student-created products associated with these texts, gifted and advanced students' needs are met while still maintaining messages and characters to which students can relate. Students will be exposed to themes such as learning from life experiences, community, cultural identity, and history, and adversity. Each theme was chosen with advanced sixth-grade students in mind and their emerging need to learn more about themselves, their world, and how to work through adversity to accomplish their goals.
