STORY

You are an 11-year-old boy living in Pallet Town with your mother. Your rival lives next door to you. You and your rival used to play mostly together when you were little, but lately, he has become mean. He sees you as his rival because you are the same age and height. When you hear that Professor Oak is a Pokémon expert, you get excited because you are a combativity. You walk outside of Pallet Town in search of Pokémon and you hear a voice.

"Hey! Don't go into the grass!" It's Professor Oak. "There are wild Pokémon living in there," he says. "They can be very dangerous."

This is the Red version of Pokémon. There are other versions, too. The story and characters are the same for all versions. The differences between the versions are the type and probability of Pokémon appearances.

To complete your collection, you will need to trade with a friend who has another version.

If you possess trained Pokémon, you can let them fight against wild ones.

Professor Oak takes you back to his lab where your rival is waiting. Professor Oak invited him because he is Professor Oak's grandson. Professor Oak instructs you: "There are 3 Pokémon here, so choose the one you like best. Then, you have a Pokémon, the rest is up to you."
