## **Sage Line 50 2015 User Manual:**

**Handbook for Online Learning Contexts: Digital, Mobile and Open** Ann Marcus-Quinn, Triona Hourigan, 2021-05-29  
This book addresses the gap in the literature concerned with global case studies of successful Digital Mobile and Open Education. The book shares experiences from international teaching and learning projects at all levels of Education and provides advice for future policy and investment in digital teaching and learning and Open Education projects. It also provides an expectation on the future capacity and sustainability of Open Education. *The Bloomsbury Handbook of Early Childhood Transitions Research* Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19  
Research into early childhood transitions has become a field in its own right. It is increasingly understood that a positive start in any new setting can influence the child's engagement, sense of belonging, well-being, progression in learning and agency and may be dependent on the insight of educators and families and yet there is no research methodology or research methods book dedicated to this growing field of study. Including 27 chapters written by researchers from the UK, New Zealand, the USA, Sweden, Iceland, Australia and Canada, this handbook presents an overview of the field, exploring its current debates, reflects on its history and offers suggestions for the future of the field. This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood. **A Handbook of Visual Methods in Psychology** Paula Reavey, 2020-08-23  
This comprehensive volume explores the set of theoretical, methodological, ethical and analytical issues that shape the ways in which visual qualitative research is conducted in psychology. Using visual data such as film, making social media analyses, photography and model making, the book uniquely uses visual qualitative methods to broaden our understanding of experience and subjectivity. In recent years, visual research has seen a growing emphasis on the importance of culture in experience-based qualitative methods. Featuring contributors from diverse research backgrounds including narrative psychology, personal construct theory and psychoanalysis, the book examines the potential for visual methods in psychology. In each chapter of the book, the contributors explore and address how a visual approach has contributed to existing social and psychological theory in their line of research. The book provides up-to-date insights into combining methods to create new multi-modal methodologies and analyses these with psychology-specific questions in mind. It covers topics such as sexuality, identity, group processes, child development, forensic psychology, race and gender and would be the ideal companion for those studying or undertaking research in disciplines like psychology, sociology and gender studies. **Handbook on the Sustainable Supply Chain** Joseph Sarkis, 2019
