**Types of Saltwater Aquariums** There are several different setups for a saltwater aquarium ranging from the simplest to the most complex a fish only tank a FOWLR fish only with live rock tank and a reef tank While containing only fish in your tank is the cheapest and easiest to maintain out of the three options it can be quite exciting to watch coral formations grow and develop over the course of your saltwater tank's life The choice comes down to one of investment The most popular choice and my personal favourite is a reef tank This is the pinnacle of saltwater aquarium setup and will allow you to host a number of fish corals and invertebrates in your new saltwater aquarium It takes the most effort to set up and maintain however if you are going to
