

The Same Sex Marriage Should Be Legalized.

The same sex marriage has been widely debated in many countries for a long time. It is an important issue because it concerns basic moral and human rights. Nowadays, many gay couples have come out and expressed their sexuality choices. Although many people are against the legalization of same sex marriage, the same sex marriage should be legalized because it is their civil rights which is a separate institution with religious, it encourages strong family value and leads to the increasing number of child adoption, and the same sex marriage also brings a lot of financial benefits.

Many people believe that the same sex marriage should not be legalized because it goes against the moral and the definition of marriage. According to MarketWatch magazine (2008), a lot of people believe that same sex marriages destroy family values and the sanctity of tradition. Moreover, the same sex marriage goes against many religious beliefs such as Catholicism and Islam. However, civil and religious marriages are two separate institutions. Joe Solmoneses, the president of the Human Rights Campaign Foundation, claims that marriage is not only a significant religious meaning but it is also a legal contract. Many couples would not require any religious leaders to perform their marriages. So the frames of the religious and law were separated.

While a lot of people strongly believe that children need a mother and a father. According to the National Institutes of Health (2008), girls who are raised apart from their father are reportedly at higher risk for early sexual activities. Same sex households are not appropriate for raising children. On the other hand, Dr. Peggy Drexler, author of 'Our Father, Ourselves, Daughters and the Changing American Family', claims that from her studies children raising in the same sex households felt more open-minded and empathetic than other children. According to the research, the quality of a family's relationship is more important than the particular structure of families. Moreover, research studies from the Human Rights Campaign Foundation also shows that children raised by gay parents do just as well as children raised by straight couples.

Another reason why same sex marriages should be legalized is financial benefits. Even though some people felt uncomfortable to have their tax used to support something they find wrong, they think legalizing gay marriage might cost too much tax money. However, same sex couples also pay tax as everybody, so they have the right to receive the same benefit with others. Moreover, the same sex marriage will gain a lot of financial benefits through marriage licenses, higher income taxes and decrease in cost for state benefit programs. Joe Solmonese argues that legalized gay marriage would reduce tax used on public assistance programs.

Treating same-sex couples as families under law could even save taxpayers money because marriage would require them to assume legal responsibility for their joint living expenses and reduce their dependence on public assistance programs such as Medicaid, Temporary Assistance to Needy Families, Supplemental Security Income disability payments and food stamps.

(“Answer to Questions About Marriage Equality”, www.hrc.org, 2009)

Therefore, the same financial benefits that apply to man-woman marriages apply to same-sex marriages.
