

Nursing Case Study

I. Health History

The subject of my case study is W. K. W.K. is a 95 year old white male who was admitted to Moses Cone Hospital on November 23, 2002. Prior to being admitted to the hospital, W. K. had been in excellent health. His troubles apparently began three weeks prior to being admitted. On November 23, W. K.'s son found him lying on the floor confused, and soaked in urine.

Mr. K. was diagnosed as having an acute cerebral vascular accident. This disorder can also be described as a "stroke". It occurs when there is an interruption of normal blood flow in one or more of the blood vessels that supply the brain. Thrombosis, embolism, and hemorrhage are the primary causes of a CVA. (Sommers and Johnson 2002) The tissues of the brain become ischemic, leading to hypoxia or anoxia with destruction or necrosis of the neurons, glia, and vasculature. Complications of CVA include unstable blood pressure, sensory and motor impairment, infection, pneumonia, contractures, and pulmonary emboli. CVA is the third leading cause of death in the United States and affects more than 500,000 Americans annually. (Sommers and Johnson 2002)

He was widowed in October of 2001, one daughter has coronary artery disease, one son died of an MI at age 37, and one son died with lung cancer at 57. He had been the primary care giver of his daughter until she was admitted to the hospital three weeks ago. She is dying with a short bowel syndrome and cirrhosis and is now being taken care of in hospice. Soon after being left alone, Mr. K.'s appetite decreased and he had become congested. He was placed on Paxil to treat symptoms of depression. He had also been taking Cipro for congestion. Also his family noticed that he was suffering from confusion. As a result, they brought him into the Emergency Room for evaluation. The Emergency Room doctors performed a CT scan of the brain which revealed evidence of old strokes. The doctors

Sample Case Studies Nursing:

Fundamentals of Nursing Test Success Frances H. Cornelius, Ruth A. Wittmann-Price, 2012-11-12 Based on a philosophy of active learning this innovative text uses unfolding case studies as a compelling vehicle for learning fundamental nursing content Unlike traditional vignettes these case studies evolve over time as real life situations better enabling students to develop the skills they need to problem solve actively engage and use critical thinking techniques in new situations The unfolding case study method also assists in the development of skills that are important for nursing students about to embark on the NCLEX RN The text incorporates all types of NCLEX style questions into the unfolding case studies to facilitate exam preparation This method offers a unique study opportunity that integrates all fundamental concepts and skills application with practice and professional role responsibilities The patient care content areas that are needed for NCLEX RN success safe and effective care health promotion physiological and psychological integrity are interwoven into an engaging format References at the end of each chapter provide guidance for additional study as needed Electronic and web resources provide quick access to valuable web delivered information that will be useful in a clinical setting eBook versions of this text will take the reader directly to the web resource Key Features Integrates core nursing concepts and content into unfolding case studies Provides engaging test review preparation for course success and NCLEX RN test success Offers students a refreshing new study option and relief from endless Q A format offered by other content review books Develops critical thinking skills to help students think like a nurse Incorporates all types of NCLEX style questions into unfolding case studies

Gerontology Nursing Case Studies Donna J. Bowles, 2011-02-24 Designated a Doody's Core Title This is an excellent teaching guide and resource manual for instructors gerontological nursing students and practicing nurses and social workers who wish to learn more about geriatric concerns and care It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers As a home care nurse working mainly with the geriatric community I found the resources helpful in my practice As an instructor I found the book to be a very useful guide for teaching geriatrics Score 90 4 Stars Doody's Medical Reviews Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice The Gerontologist The case narrative approach of this book promotes active learning that is more meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice An excellent resource for faculty staff educators to facilitate critical learning skills Liz Capezuti PhD RN FAAN Dr John W Rowe Professor in Successful Aging Co Director Hartford Institute for Geriatric Nursing New York University College of Nursing This is a terrific text that provides nurses and other health care providers with good basic information about clinical problems and challenges we face in providing care to older adults It should be considered required reading in all undergraduate programs

From the foreword by Barbara Resnick PhD CRNP FAAN FAANP Professor University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue physical mental and psychosocial that may confront health care providers who work with the aging population These case studies culled from contributors with several centuries worth of combined nursing expertise are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies Exercises interspersed throughout each case study are designed to foster critical thinking and decision making skills These case narratives provide a holistic approach to problem solving in regard to political ethical and legal issues loss and end of life issues elder abuse depression addiction and suicide self esteem and family relationships sexuality age related health issues cognitive impairment cultural diversity as it relates to aging pain management and sleep disturbances The volume also addresses such contemporary psychosocial issues as gambling addiction hoarding behavior emergency preparedness the aging driver and long distance caregiving Key Features Provides 100 evidence based case studies Cultivates development of critical thinking and decision making skills Features realistic contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings

Case Studies in Nursing Ethics Sara T. Fry, Robert M. Veatch, 2006 Case Studies in Nursing Ethics presents basic ethical principles and specific guidance for applying these principles in nursing practice through analysis of over 150 actual ethical case study conflicts that have occurred in the practice of nursing Each case study allows readers to develop their own approaches to the resolution of ethical conflict and to reflect on how the traditions of ethical thought and professional guidelines apply to the situation

Nursing Case Studies in Caring Charlotte D. Barry, Shirley C. Gordon, Beth M. King, 2015-06-04 Print CourseSmart
