

## Perseverance and Success

When we steadfastly believe in doing something successfully and stick to it despite the challenges and the obstacles that we encounter and remain resolute, we are showing perseverance. Perseverance plays an instrumental role in our life and the best part is that this quality can be acquired without a college education or a formal degree. Although it is an innate quality, yet it can be honed and polished with strong willpower. The will to never give up is the key to success and we will find demonstration of such perseverance and persistence throughout history and our life.

Life can be quite unpredictable. It's like a roller coaster ride with never-ending ups and downs. Sometimes the sea of life is really smooth and sometimes the rough waves of failure toss us deep in the midst of despair and misery. However, the ones who don't give up even in the direst circumstances are the ones that succeed in life. They make the success happen for them by overriding all the obstacles and roadblocks they come across.

History has been witness to some great people whose secret of success is in the act of perseverance. If it was not for the American Inventor Thomas Edison's strong willpower and persistence, we wouldn't have had the electric light bulb. At least its invention would not have been possible for many years later than 1879.

Success always follows perseverance and grit in every area of our life. Whatever our goals are and whatever we want to achieve in life, it's possible to realise our dreams if we're persistent. This distinctive quality is visible from the time we are born. From learning to walk, talk, write and do all the other things that come naturally to us now were learned through our grit and perseverance in our early age.

Perseverance can be developed and enhanced with gradual steps and smaller successes. It is like placing the pieces of a jigsaw puzzle. You have to be really patient and stick to the task with determination until each piece fits. Only then we can succeed in having a complete picture in front of us.

Knowledge and information play a key role where persistence is concerned. To move ahead in life and actually make a difference the learning should never stop. It can help us summit the mountains which may otherwise seem impossible. Gaining knowledge about the challenges that we face is one of the key factors that's helpful in overcoming our failures. Learning the causes of failures is another f
