### **Obedience Dio Trilogy Book 3:**

**A handy book of Church discipline, and the act of 3 & 4 Victoria, cap. 86** Charles Egan,1867      **The Publishers' Trade List Annual** ,1881      Cursus honorum: pathways to rank and power in the roman republic Francisco Pina Polo,2025-03-24 This volume addresses a crucial issue for the political culture of the Roman Republic competition among individuals and families of the social elite This rivalry came to head at the annual elections of new magistrates every year a number of candidates ran for office and whereas some obtained sufficient votes from the people others were defeated The political career of a Roman citizen therefore took the shape of a hierarchical ladder cursus honorum whose rungs corresponded to the age at which one or other magistracy was attained The book deals with the position of the cursus honorum in Republican history reflects on the way scholarship has constructed its political and social significance for the political culture of the period and discusses questions relating to how Roman citizens pursued different political careers The outcome is a groundbreaking and essential contribution to a better understanding of the Roman Republic      *Franciscan Literature of Religious Instruction before the Council of Trent* Bert Roest,2004-10-01 This book provides for the first time an exhaustive discussion of the Franciscan production of texts of religious instruction during the later medieval period c 1210 c 1550 In eight chapters it introduces the reader to the most important Franciscan sermon cycles the Franciscan guidelines for living the life of evangelical perfection the many Franciscan novice training manuals the Franciscan catechisms and confession manuals the Franciscan output of liturgical handbooks the large number of Franciscan texts containing more wide ranging forms of religious edification and Franciscan prayer guides This book provides medievalists and Renaissance scholars alike with a new tool to assess the intellectual and religious transformations between the thirteenth and the sixteenth century and contributes to the current re interpretation of the late medieval pastoral revolution      **The National Union Catalog, Pre-1956 Imprints** Library of Congress,American Library Association. whole and this work is unique in detailing the development of an idea through major periods of Greek and Roman history and beyond

This study investigates why faith pistis fides was so important to early Christians that the concept and praxis dominated the writings of the New Testament It argues that such a study must be interdisciplinary locating emerging Christianities in the social practices and mentalit s of contemporary Judaism and the early Roman empire This can therefore equally be read as a study of the operation of pistis fides in the world of the early Roman principate taking one but relatively well attested cult as a case study in how micro societies within that world could treat it distinctively Drawing on recent work in sociology and economics the book traces the varying shapes taken by pistis fides in Greek and Roman human and divine human relationships whom or what is represented as easy or difficult to trust or believe in where pistis fides is deferred and reified in practices such as oaths and proofs how pistis fides is related to fear doubt and scepticism and which foundations of pistis fides are treated as more or less secure The book then traces the evolution of representations of human and divine human pistis in the Septuagint before turning to pistis pisteuein in New Testament writings and their role in the development of early Christologies incorporating a new interpretation of pistis Christou and ecclesiologies It argues for the integration of the study of pistis pisteuein with that of New Testament ethics It explores the interiority of Graeco Roman and early Christian pistis fides Finally it discusses eschatological pistis and the shape of the divine human community in the eschatological kingdom
