Name:  
School:  
Year:  
Date of Plan:

### Step 1: Self-Assessment

Instructional Strategy	Level/Score	Current Student Behavior/Learning	Changes in Students Behavior/Learning
Identifying Critical Information	1, Beginning	Students do not focus in on critical information being taught in a lesson.	I would like to see my students focus in on the critical information being taught throughout a lesson.

### Step 2: Identify Focus Strategies

Instructional Strategy	Baseline Level/Score and Date	Anticipated Midpoint Growth Level/Score and Date	Anticipated Final Growth Level/Score Goal and Date
Identifying Critical Information	Score: 1, Beginning Date: May 2, 2012	Score: 3, Developing Date: January 2013	Score: 4, Applying Date: May 2013

### Step 3: Write Measurable Goals

Goal(s)
By the end of the year, I will raise my score on identifying critical information from a 2 to a 4, and I expect to see students describing the level of importance of the information addressed in class, students explaining why the content is important to pay attention to, and students visibly adjusting their level of engagement when critical information is share.

### Step 4: Identify Specific Action Steps and Resources

Teacher/Classroom Action Steps	Resources and Professional Development
-Begin the lesson by explaining why upcoming content is important -Tell students to get ready for some important information -Cue the importance of upcoming information by my tone of voice, body position, level of excitement	- <i>Handbook for the Art and Science of Teaching</i> -School-based professional development offerings on Design Question #2

### Step 5: Reflection

Goal #1	Reflection	Date
What am I learning about the strategy?	I realized that I was not pointing out the importance of critical information within my lesson at the beginning of the class period. I did not begin with an activator that helped my students focus in on important vocabulary words. Today in my lesson, I started with key vocabulary and I think it allowed students the opportunity to see what words/phrases would be important for their learning.	11/29/2012
How do I need to prepare my lesson?		
When I am using the strategy, what do I feel is working well for me in terms of evidences of improvement in student

*A framework for a green infrastructure planning approach in the Gauteng City-Region* Christina Culwick, Kerry Bobbins, Anton Cartwright, Gregg Oelofse, Myles Mander, Stuart Dunsmore, 2016-09-01 As the population economy and urban built environment in the Gauteng City Region GCR expand government is increasingly under pressure to provide urban infrastructure to support growth It is increasingly important that this infrastructure is sustainable minimising the negative environmental impacts often associated with traditional forms of urban development Green Infrastructure GI is the interconnected set of natural and man made ecological systems green spaces and other landscape features that provide services and strategic functions in the same way as traditional infrastructure In harnessing the benefits of ecosystem services GI has emerged as a more efficient cost effective and sustainable alternative and sometimes accompanying approach to conventional forms of infrastructure Despite international evidence demonstrating how GI can be used as an alternative to or in tandem with traditional infrastructure the GI approach has so far gained only limited traction in the GCR In 2013 the GCRO published the State of Green Infrastructure in the GCR report The report established the principles that underpin GI used available data to map the extent of GI

networks in the region assessed to what extent municipalities were aware of and applying a GI approach and demonstrated a possible way to value GI in local government financial systems The conclusions of the State of Green Infrastructure report were used to guide the next phase of GCRO s research in support of the adoption of GI approach a phase focused on better understanding the opportunities for implementing GI in planning and infrastructure development programmes and on addressing some of the challenges associated with shifts towards this approach A framework for a green infrastructure planning approach in the Gauteng City Region GCRO s fourth Research Report builds on the foundations laid in the State of Green Infrastructure report It assembles expert inputs and reflections from collaborative stakeholder discussions in what was known as the Green Infrastructure CityLab to illustrate important considerations for the development of a GI planning approach in the Gauteng City Region GCR The report is divided into three broad sections Part A introduces the theoretical underpinnings of a GI approach and builds an argument for the importance of incorporating GI into planning and infrastructure development in the GCR Part B presents three pieces written by external experts They consider how GI and ecosystem services can be valued by municipalities and how so called grey green infrastructure design solutions can be implemented in the GCR Part C reflects on the stakeholder engagement process that has been undertaken primarily through the GI CityLab to deepen understanding of how GI can be embedded in municipal practice Based on these research findings this report concludes with a strategy for GCRO s next phase of work in its ongoing Green Assets and Infrastructure Project
