Nancy Lobb, 1998 No matter how much teachers may talk about the importance of solid writing skills nothing beats giving students the opportunity to make their own edits Find the Errors is a light hearted approach to this age old challenge 37 passages contain short humorous anecdotes letters crossword puzzles and more But each passage is also riddled with errors Now it s up to your students to go into those passages and identify and annotate the mistakes They ll work on spelling capitalization punctuation sentence structure and style For middle school students this is a very successful way to engage them while giving them a palpable sense of accomplishment as they improve each passage Extensive teacher support includes grammatical rules answer keys additional activities and tests for easy assessment See also Find the Errors II

Speaking and Writing English Bernard Matthew Sheridan, 1917 **Quotations as Pictures** Josef Stern, 2022-02-15

The proposal of a semantics for quotations using explanatory notions drawn from philosophical theories of pictures In Quotations as Pictures Josef Stern develops a semantics for quotations using explanatory notions drawn from philosophical theories of pictures He offers the first sustained analysis of the practice of quotation proper as opposed to mentioning Unlike other accounts that treat quotation as mentioning Quotations as Pictures argues that the two practices have independent histories that they behave differently semantically that the inverted commas employed in both mentioning and quotation are homonymous that so called mixed quotation is nothing but subsentential quotation and that the major problem of quotation is to explain its dual reference or meaning its ordinary meaning and its metalinguistic reference to the quoted phrase attributed to the quoted subject Stern argues that the key to understanding quotation is the idea that quotations are pictures or have a pictorial character As a phenomenon where linguistic competence meets a nonlinguistic symbolic ability the pictorial quotation is a combination of features drawn from the two different symbol systems of language and pictures which explains the exceptional and sometimes idiosyncratic data about quotation In light of this analysis of verbal quotation in the last chapters Stern analyzes scare quotation as a nonliteral expressive use of the inverted commas and explores the possibility of quotation in pictures themselves
