Chapter 3. PHYSICAL FITNESS AND SELF-TESTING ACTIVITIES

LEARNING OUTCOMES

At the end of this chapter, the students are expected to:

1. identify the different major muscles of the human body;
2. explain the 8 dimensions of wellness and its importance in achieving better quality of life;
3. identify the different tests that are appropriate to measure the different fitness health-related fitness components; and
4. establish baseline data (pre-test score).

OVERVIEW

Though most of the people usually aim to be physically fit, to be healthy it is not the only basis to have a better quality of life. Thus, it should be looked into a bigger picture of developing the different dimension of wellness to have a successful and happy life. In this chapter, review on the importance of wellness in one's life will be tackled as well as the eight dimensions of wellness. In addition, the importance and the proper way of establishing base line data through safe self-administered fitness testing will be the highlight of this section. It will provide baseline data as basis for developing future fitness program plans.

COURSE MATERIALS

It is very necessary to be familiarized to the different skeletal muscle and its basic function since it has a lot to do with exercise and physical activity. Skeletal Muscle, produces movement, maintains posture, stabilizes joints, and generates heat. It covers your skeleton, giving us our body shape. They are attached to our skeleton by springy tendons or are directly connected to rough patches of bone.
