Setup

Preprogrammed for immediate use with Roku-enabled TVs*. Simply insert two (2) AA batteries (not included) and you're ready to enjoy your favorite shows. Alkaline batteries are recommended for this remote.

An Insignia or Sharp Roku-enabled TV may require programming. Additionally, if you wish to program the remote to operate a Roku streaming player rather than a Roku TV, please see the Programming Instructions section for details.

Battery Installation

1. Press arrow on back of remote and slide cover downward to remove.
2. Insert the batteries, making sure to match the (+) (-) polarity inside the compartment.
3. Replace cover and slide it upward until it clicks into place.

NOTE: If your remote is not operating properly, replace the batteries with new ones.

Battery Precautions

- Do not mix old and newer batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (Ni-Cd, Ni-MH, etc.) batteries.
- Always remove old, weak or worn-out batteries promptly and recycle or dispose of them in accordance with local and national regulations.

Battery Saver

Your remote automatically turns off if the buttons are held down for more than 8 seconds. This saves battery life if your remote gets stuck in a place where the buttons remain depressed (e.g., between sofa cushions).

Code Saver

You have up to 10 minutes to change the batteries in your remote without losing the codes you have programmed.

Programming Instructions

Insignia and Sharp Roku TVs: Some Insignia and Sharp models may need additional programming. Use the included Code List and follow the steps below.

Roku Streaming Players: This remote can operate either a Roku TV or a Roku streaming player. It does not work with Roku streaming sticks. Programming is required for use with compatible Roku streaming players. Use the included Code List and follow the steps below.

1. In the Code List (included with remote), circle the 4-digit codes for the type and brand of device you wish to control.
2. Press and hold down the SETUP button until the remote's red light turns on.
3. Use the number buttons indicated in the diagram above to enter the first 4-digit code circled in Step 1. The red light will then turn off.
4. Point the remote at the device and test the buttons. If they don't work as expected, repeat Steps 2-4 with the next circled code.

Programming notes

- Some codes may operate only a few device functions, so test other codes for more functionality.
- Keep your device codes for future reference.

Troubleshooting

Remote does not operate your device

- Make sure the batteries are fresh and installed correctly.
- Aim the remote directly at your device and make sure there are no obstructions between the remote and the device.
- Remote may not be compatible with your device.
