Proctor, Trisha Van Zandt, 2018-01-02 Recently there have been a number of advances in technology including in mobile devices globalization of companies display technologies and healthcare all of which require significant input and evaluation from human factors specialists Accordingly this textbook has been completely updated with some chapters folded into other chapters and new chapters added where needed The text continues to fill the need for a textbook that bridges the gap between the conceptual and empirical foundations of the field **Under the Shadow of Nationalism** Mariko Asano Tamanoi, 1998-03-01 The contribution of rural women to the creation and expansion of the Japanese nation state is undeniable As early as the nineteenth century the women of central Japan's Nagano prefecture in particular provided abundant and cheap labor for a number of industries most notably the silk spinning industry Rural women from Nagano could also be found working from a very young age as nursemaids domestic servants and farm laborers In whatever capacity they worked these women became the objects of scrutiny and reform in a variety of nationalist discourses not only because of the importance of their labor to the nation but also because of their gender and domicile the

countryside was the centerpiece of state ideology and practice before and during the war during the Occupation and beyond. Under the Shadow of Nationalism explores the interconnectedness of nationalism and gender in the context of modern Japan. It combines the author's long-term field research with a painstaking examination of the documents behind these discourses produced at various levels of society from the national government records, social reformers' reports, ethnographic data to the local teachers' manuals, labor activists' accounts, village newspapers. It provides a wide-ranging yet in-depth look at a key group of Japanese women as national subjects through the critical chapters of Japanese modernity and postmodernity.
