A Church for the World Samuel Yonas Deressa, Josh de Keijzer, 2020-08-20 A Church for the World The Church's Role in Fostering Democracy and Sustainable Development challenges theologians and lay readers alike to think about the role of the church vis vis its responsibility to the world How may the church contribute to democracy and foster sustainable development Contributors from mostly non Western theological communities offer historical developmental ecclesiastical and theological perspectives on the church world relationship challenging misconceptions and practices that prevent the church from living up to its transformational vocation as salt and light in the world Matt 5 13 16 The driving force behind the questions and perspectives

discussed here is Gustavo Gutierrez's axiom in *A Theology of Liberation*. A theology which fails to address the most urgent needs of ordinary people is not worthy of the word theology. Proceeding from this insight, this book creates awareness about the relationship between religion, democracy, and development and aims to strengthen the self-understanding of the church with regard to its responsibilities in the world. Criminal Trajectories David M. Day, Margit Wiesner, 2019-07-23 Winner 2020 DLC Outstanding Contribution Award given by the American Society of Criminology. An exploration of criminal trajectories placing them in a developmental context. Over the past several years, notions of developmental trajectories, particularly criminal trajectories, have taken hold as important areas of investigation for researchers interested in the longitudinal study of crime. This accessible volume presents the first full-length overview of criminal trajectories as a concept and methodology and makes the case for a developmental approach to the topic. The volume shows how a developmental perspective is important from a practical standpoint, helping to inform the design of prevention and early intervention programs to forestall the onset of antisocial and criminal activity, particularly when it begins in childhood. Crime, in this view, does not suit a one-size-fits-all model. There are different types of criminals who develop as the result of different types of developmental factors and experiences. By considering what risk factors may set the stage for later crimes in certain circumstances, the authors argue that we may be able to intervene at any point along the life course and, if addressed early enough, prevent criminal behavior from taking root. *Criminal Trajectories* offers a comprehensive synthesis of the findings from numerous criminal trajectory studies presented through a multi-disciplinary lens. It addresses the policy and practice implications of these findings for the criminal justice system, including a critique of current sentencing and incarceration practices and presents twelve recommendations informed by developmental frameworks for future work. [The NPPF Handbook](#) Gregory Jones KC, Simon Neate, 2025-09-04 Promising 1.5 million new homes by 2029, the new Labour government has made increased house building a central part of its growth agenda. Expertly co-edited by Gregory Jones KC and Simon Neate, MRTPI, the book provides a unique commentary from a blended team of experienced specialist planning barristers from the leading planning chambers of Francis Taylor Building and planning, transport, and economics consultants from the international professional services firm WSP.
