Harry S. Truman and the Election of 1948

Center the title.

"Thomas E. Dewey's Election as President Is a Foregone Conclusion," read a headline in the *New York Times* during the presidential election race between incumbent Democrat Harry S. Truman and his Republican challenger, Thomas E. Dewey. Earlier, *Life* magazine had put Dewey on its cover with the caption "The Next President of the United States" (qtd. in "1948 Truman-Dewey Election"). In a *Newsweek* survey of fifty prominent political writers, each one predicted Truman's defeat, and *Time* correspondents declared that Dewey would carry 39 of the 48 states (Donaldson 210). Nearly every major media outlet across the United States endorsed Dewey and lambasted Truman. As historian Robert H. Ferrell observes, even Truman's wife, Bess, thought he would be beaten (270).

Double-space throughout.

The results of an election are not so easily predicted. Not only did Truman win the election, but he won by a significant margin, with 303 electoral votes and 24,179,259 popular votes, compared to Dewey's 189 electoral votes and 21,991,291 popular votes (Donaldson 204-7). In fact, many historians and political analysts argue that Truman would have won by an even greater margin had third-party Progressive candidate Henry A. Wallace not split the Democratic vote in New York State and Dixiecrat Strom Thurmond not won four states in the South (McCullough 711). Although

Assessment in the Second Language Writing Classroom Deborah Crusan, 2010-07. *Assessment in the Second Language Writing Classroom* is a teacher and prospective teacher friendly book, uncomplicated by the language of statistics. The book is for those who teach and assess second language writing in several different contexts: the IEP, the developmental writing classroom, and the sheltered composition classroom. In addition, teachers who experience a mixed population or teach cross-cultural composition will find the book a valuable resource. Other books have thoroughly covered the theoretical aspects of writing assessment, but none have focused as heavily as this book does on pragmatic classroom aspects of writing assessment. Further, no book to date has included an in-depth examination of the machine scoring of writing and its effects on second language writers. Crusan not only makes a compelling case for becoming knowledgeable about L2 writing assessment but offers the means to do so. Her highly accessible, thought-provoking presentation of the conceptual and practical dimensions of writing assessment, both for the classroom and on a larger scale, promises to engage readers who have previously found the technical detail of other works on assessment off-putting, as well as those who have had no previous exposure to the study of assessment at all.
