Questions 1 - 3 refer to the excerpt below.

"In 1739 arrived among us from Ireland the Reverend Mr. [George] Whitefield, who had made himself remarkable there as an itinerant preacher. He was at first permitted to preach in some of our churches; but the clergy, taking a dislike to him, soon refused him their pulpits, and he was obliged to preach in the fields. The multitudes of all sects and denominations that attended his sermons were enormous. . . . It was wonderful to see the change soon made in the manners of our inhabitants. From being thoughtless or indifferent about religion, it seemed as if all the world were growing religious, so that one could not walk thro' the town in an evening without hearing psalms sung in different families of every street."

Improving Quality in American Higher Education Richard Arum, Josipa Roksa, Amanda Cook, 2016-05-02 An ambitious comprehensive reimagining of 21st century higher education, *Improving Quality in American Higher Education* outlines the fundamental concepts and competencies society demands from today's college graduates and provides a vision of the future for students, faculty, and administrators. Based on a national multidisciplinary effort to define and measure learning outcomes, the Measuring College Learning project, this book identifies essential concepts and competencies for six disciplines. These essential concepts and competencies represent efforts towards articulating a consensus among faculty in biology, business, communication, economics, history, and sociology disciplines that account for nearly 40 percent of undergraduate majors in the United States. Contributions from thought leaders in higher education, including Ira Katznelson, George Kuh, and Carol Geary Schneider, offer expert perspectives and persuasive arguments for the need for greater clarity, intentionality, and quality in U.S. higher education. College faculty are our best resource for improving the quality of undergraduate education. This book offers a path forward based on faculty perspectives nationwide. Clarify program structure and aims. Articulate high-quality learning goals. Rigorously measure student progress. Prioritize higher-order competencies and disciplinarily grounded conceptual understandings. A culmination of over two years of efforts by faculty and association leaders from six disciplines, this book distills the national conversation into a delineated set of fundamental ideas and practices and advocates for the development and use of rigorous assessment tools that are valued by faculty, students, and society. *Improving Quality in American Higher Education* brings faculty voices to the fore of the conversation and offers an insightful look at the state of higher education and a realistic strategy for better serving our students.
