My Samsung Galaxy S5 Steven A. Schwartz, 2014. Introduces the major features of the Samsung Galaxy S series of smartphones, covering such topics as texting, accessing the Internet, downloading apps, sharing pictures, playing music and videos, using maps, and maximizing shortcuts.

Media Culture in Nomadic Communities Allison Hahn, 2015-10-01. Media Culture in Nomadic Communities examines the ways that new technologies and ICT infrastructures have changed the communicative norms and patterns that regulate mobile and nomadic communities' engagement in local and international deliberative decision making. Each chapter examines a unique communicative event, such as how the Maasai of Tanzania have used online petitions to demand government action, how Mongolians in northern China have used microblogs to record and debate land tenure, and how herding communities from around the world have supported the Lakota Sioux protests at Standing Rock. Through these case studies, Hahn argues that mobile and nomadic communities are creating and utilizing new communicative networks that are radically changing local, national, and international deliberations.
