**Student Solutions Manual for Chemistry** Nivaldo Tro, Kathleen Thrush Shaginaw, 2019-01-18 Nivaldo Tro's Chemistry: A Molecular Approach presents chemistry visually through multi-level images: macroscopic, molecular, and symbolic representations to help students see the connections between the world they see around them, the atoms and molecules that compose the world, and the formulas they write down on paper. Interactive digital versions of select worked examples instruct students how to break down problems using Tro's unique Sort, Strategize, Solve, and Check technique, and then complete a step in the example. To build conceptual understanding, Dr. Tro employs an active learning approach through interactive media that requires students to pause during videos to ensure they understand before continuing.
