*Proust* Benjamin Taylor,2015-10-27 Taylor s endeavor is not to explain the life by the novel or the novel by the life but to show how different events different emotional upheavals fired Proust s imagination and albeit sometimes completely transformed appeared in his work The result is a very subtle thought provoking book Anka Muhlstein author of Balzac s Omelette and Monsieur Proust s Library Marcel Proust came into his own as a novelist comparatively late in life yet only Shakespeare Balzac Dickens Tolstoy and Dostoyevsky were his equals when it came to creating characters as memorably human As biographer Benjamin Taylor suggests Proust was a literary lightweight before writing his multivolume masterwork In Search of Lost Time but following a series of momentous historical and personal

events he became against all expectations one of the greatest writers of his and indeed any era This insightful beautifully written biography examines Proust's artistic struggles the search of the subtle and stunning metamorphosis in the context of his times Taylor provides an in depth study of the author's life while exploring how Proust's personal correspondence and published works were greatly informed by his mother's Judaism his homosexuality and such dramatic events as the Dreyfus Affair and above all World War I As Taylor writes in his prologue Proust's Search is the most encyclopedic of novels encompassing the essentials of human nature His account running from the early years of the Third Republic to the aftermath of World War I becomes the inclusive story of all lives a colossal mimesis To read the entire Search is to find oneself transfigured and victorious at journey's end at home in time and in eternity too *Hannah Arendt* Anne Conover Heller, 2015 A biography of one of the leading intellectuals in postwar America author of the controversial Eichmann in Jerusalem which introduced the concept of banality of evil changing in a single phrase our view of humanity

**Constellations** Daniel Mark Epstein, 2025-10-20 Daniel Mark Epstein's poetry has been in the public eye for nearly sixty years since the magazine publication of the poems in his groundbreaking first book No Vacancies in Hell 1973 Critics praise the erotic and spiritual lyricism of his poetry as well as its power in capturing crucial moments of American history in dramatic monologues including prize winning portraits of a yellow fever epidemic and Henry Adams's tragic marriage Of The Traveler's Calendar 2002 Booklist commented Biographies of Nat King Cole and Edna St Vincent Millay have won Epstein greater renown but his best writing is his mythically and historically haunted poetry The critic Adam Kirsch called Dawn to Twilight 2015 a selection of Epstein's lyric poems a testament to the achievement of a major American poet Constellations collects for the first time the nine books of poems published by a modern master of lyric dramatic and narrative poetry A stirring selection of new work includes the sonnet sequence Cruel April Poems from the Pandemic which inspired a 2020 short film featuring Tyne Daly **Psychiatry in Crisis** Vincenzo Di Nicola, Drozd Stoj Stoyanov, 2021-02-03 The field of academic psychiatry is in crisis everywhere It is not merely a health crisis of resource scarcity or distribution competing claims and practice models or level of development from one country to another but a deeper more fundamental crisis about the very definition and the theoretical basis of psychiatry The kinds of questions that represent this crisis include whether psychiatry is a social science like psychology or anthropology whether it is better understood as part of the humanities like philosophy history and literature or if the future of psychiatry is best assured as a branch of medicine based on genetics and neuroscience In fact the question often debated since the beginning of modern psychiatry concerns the biomedical model so that part of psychiatry's perpetual self questioning is to what extent it is or is not a branch of medicine This unique and bold volume offers a representative and critical survey of the history of modern psychiatry with deeply informed transdisciplinary readings of the literature and practices of the field by two professors of psychiatry who are active in practice and engaged in research and have dual training in scientific psychiatry and philosophy In alternating chapters presenting contrasting

arguments for the future of psychiatry the two authors conclude with a dialogue between them to flesh out the theoretical research and practical implications of psychiatry's current crisis outlining areas of divergence consensus and fruitful collaborations to revision psychiatry today The volume is scrupulously documented but written in accessible language with capsule summaries of key areas of theory research and practice for the student and practitioner alike in the social and human sciences and in medicine psychiatry and the neurosciences
